

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
11/15/2020	American Foundation for Suicide Prevention	<a href="#">Research Grant</a>	<b>Distinguished:</b> \$125,000 <b>Standard:</b> \$100,000 <b>Young Invest:</b> \$85,000 <b>Pilot:</b> \$30,000	Suicide, Social Science, Psychology	Proposals are sought for a variety of Innovation grant programs. <b>Distinguished Investigator Grants</b> provide funding for investigators at the level of associate professor or higher with an established record of research and publication on suicide. <b>Standard Research Innovation Grants</b> provide funding for research to contribute to the understanding and ultimate prevention of suicide, or to the treatment of suicidal individuals. <b>Young Investigator Innovation Grants</b> provide funding to assist new researchers to obtain the advice, guidance and supervision of an established mentor in a selected area of suicide research. <b>Someone who is or has been a PI on an NIH/NIMH research grant or its equivalent does not qualify as a Young Investigator. Pilot Innovation Grants</b> provide funding to provide seed money for projects that show promise in opening up new areas of suicide research. <b>Grants are not intended to support the development or implementation of prevention programs, educational programs, treatments, or other interventions that do not have a significant research component.</b>
11/16/2020 <b>Limited Submission: Apply through Research Acceleration Office</b>	Council on Library and Information Resources	<a href="#">Research Grant</a>  <a href="#">RAO Limited Submission</a>	\$10,000 - \$50,000	History, Media Preservation	<b>Recordings at Risk</b> is supports the preservation of rare and unique audio, audiovisual, and other time-based media of high scholarly value through digital reformatting. Eligible media may include, but are not necessarily limited to, magnetic audio and video tape, grooved discs, wax cylinders, wire recordings, and film (with or without sound). <b>Applicants institutions may submit only one application per cycle.</b>
11/16/2020 <b>Limited Submission: Apply through Research Acceleration Office</b>	Gordon and Betty Moore Foundation	<a href="#">Research Grant</a>  <a href="#">RAO: Limited Submission</a>	Up to \$675,000 (over 3 years)	Engineering, Business, Agricultural Science, Natural Sciences, Life Sciences, Medical Research, Early Career	The <b>Gordon and Betty Moore Foundation</b> seeks to identify outstanding inventors and innovators who harness science and technology to enhance the conduct of scientific research, strengthen environmental conservation, or improve the experience and outcomes of patient care. <b>The Moore Inventor Fellows</b> program focuses on supporting scientist-inventors at a critical stage of research to capture opportunities that otherwise might be missed. They seek to provide freedom and support to promising inventors with the most compelling ideas to pursue creative work. <b>Candidates must be faculty, research scientists, postdocs or other full-time staff at eligible institutions. Candidates must be no more than 10 years past receiving the terminal advanced degree in their field</b>

\* Restricted Opportunity: Internal selection precedes submission to the sponsor. See link for details.

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
11/18/2020	U.S. – Israel Binational Science Foundation	<a href="#">Research Grant</a>	\$75,000 (over 2 years)	Engineering & Physical Sciences, Environmental & Life Sciences, Early Career	<b>The Start-Up Grant Program</b> is meant to help newly appointed researchers who are beginning their independent research careers and may not yet have initial results to substantiate their application. It is implemented within the framework of the regular BSF Research Grants program, i.e., it must exhibit scientific excellence, have a strong element of cooperation between Israeli and American scientists, and fall within the areas of research supported in that year by the BSF. <b>At least one of the principal investigators should have attained his/her Ph.D., M.D. degree or equivalent, no more than ten years prior to submitting his/her proposal.</b>
11/24/2020 (LOI)	Robert Wood Johnson Foundation	<a href="#">Research Grant</a>	\$250,000 (over 2 years)	Public Policy, Racial Equity	The goal of the <b>Policies for Action: Public Policy Research to Advance Racial Equity and Racial Justice</b> call for proposals is to build the evidence base about how national, state, and local policies can improve racial equity in health and well-being in the United States. RWJF supports research that generates actionable evidence and information about how, and how well policies work. They would like research findings to guide legislators; public agencies; public policy advocates; grassroots organizers; and other stakeholders developing and implementing policies to create equitable communities.
11/30/2020 (LOI)	American Sleep Medicine Foundation	<a href="#">Research Grant</a>	Up to \$250,000 (over 1-3 years)	Medical Research, Sleep Disorders, Engineering, Machine Learning	The <b>Strategic Research Award</b> supports high-impact research projects aimed at addressing gaps in knowledge that impact the ability to provide optimal, patient-centered, cost-effective diagnosis and care for patients with sleep disorders. This is a focused request for applications (RFA) open to topic areas related to the following American Academy of Sleep Medicine (AASM) Strategic Plan goals: Public Awareness, Technology Innovation and Advocacy to Improve Patient Care. Topic areas that address the AASM Strategic Plan goals must advance the field of sleep medicine and population sleep health.
11/30/2020	Bayer	<a href="#">Award</a>	Up to \$160,000	Medical Research, Hemophilia, Translational	The <b>Bayer Hemophilia Basic Research Award</b> will provide funds to undertake a basic research project in the bleeding disorders field. Focus areas for such projects include, but are not limited to: Role of FVIII outside of coagulation Inhibitors; Immunogenicity; Lab monitoring research and applications.

\* Restricted Opportunity: Internal selection precedes submission to the sponsor. See link for details.

RFPs for External Non-Federal Funding Opportunities as of November 1, 2020

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
11/30/2020	Tel Aviv University	<a href="#">Prize</a>	\$1 Million	History of Health and Medicine, Public Health, Molecular Medicine	The <b>Dan David Prize</b> recognizes and encourages innovative and interdisciplinary research that cuts across traditional boundaries and paradigms. The individual or institution being nominated must have made a singular achievement or a series of achievements and continues to make a unique, profound contribution to humanity, on a global scale, in one of the selected fields for the year in which the nomination is being made. The 2021 fields are: History of Health and Medicine; Public Health; Molecular Medicine <b>Self-nominations, including nominations for organizations in which the nominator is currently employed, are not accepted.</b>
11/30/2020	Gerda Henkel Foundation	<a href="#">Research Grant</a>	Up to €37,000 ~\$43,600 (over 2 years)		The " <b>Security, Society and the State</b> " research program targets new security-related issues that are prime examples of the post-Cold-War era but have been largely neglected in mainstream research. The program is intended to encourage junior scholars to pursue unconventional research agendas that are nonetheless crucial, while providing senior scholars with the opportunity to focus intensively on work in progress for a limited period. Moreover, the objective is to combine basic theoretical research with concepts that are applicable to present-day political issues of security policy.
12/1/2020 6/1/2021	Wenner-Gren Foundation	<a href="#">Programmatic Grant</a>	Up to \$20,000	Anthropology	Grants are available for conferences and workshops that bring international scholars together to develop anthropological knowledge and debate. Priority is given to events that foster the creation of an international community of research scholars in anthropology and advance significant and innovative anthropological research.
12/1/2020	Norwegian Academy of Science and Letters	<a href="#">Prize</a>	\$1 million	Astrophysics, Nanoscience, Neuroscience	The <b>Kavli Prizes</b> recognize scientists for pioneering advances in our understanding of existence at its biggest, smallest, and most complex scales. Prizes are available in <b>Astrophysics, Nanoscience, and Neuroscience.</b>

\* Restricted Opportunity: Internal selection precedes submission to the sponsor. See link for details.

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/1/2020 5/1/2021	Environmental Research & Education Foundation	<a href="#">Research Grant</a>	Up to \$500,000 (over 3 years)	Waste Management, Biofuels, Energy	<b>General RFP:</b> Pre-proposal topics must relate to sustainable solid waste management practices and pertain to the following topic areas: Waste minimization; recycling; waste conversion to energy, biofuels, chemicals or other useful products; strategies to promote diversion to higher and better uses; and landfilling.
12/1/2020 (LOI)	Massage Therapy Foundation	<a href="#">Research Grant</a>	\$30,000- \$300,000 (over 3 years)	Medical Research, Massage Therapy, Translational	Awards are granted to support high quality, independent research which contributes significantly and directly to the knowledge of massage therapy and/or its application. Basic, applied, and translational research studies which investigate massage therapy as a wellness, medical, or health/mental health treatment and/or prevention intervention are supported.
12/1/2020	Burroughs Wellcome Fund	<a href="#">Research Grant</a>	Up to \$500,000 (over 4 years)	Medical Research, Preterm Birth, Translational, Engineering, Computer Science	The <b>Next Gen Pregnancy Initiative</b> is designed to stimulate both creative individual scientists and multi-investigator teams to approach healthy and adverse pregnancy outcomes using creative basic and translation science methods. The formation of new connections between reproductive scientists and investigators who are involved in other areas is particularly encouraged. Molecular and computational approaches such as genetics/genomics, immunology, microbiology, evolutionary biology, mathematics, engineering, and other basic sciences hold enormous potential for new insights independently or in conjunction with more traditional areas of parturition research such as maternal-fetal medicine, obstetrics, and pediatrics. <b>Proposals can be submitted by individual investigators or research teams designating a contact principal investigator. At least one member of the team must have training and expertise outside the traditional areas of reproductive science.</b>
12/1/2020 (LOI) 3/15/2021 (LOI)	The Retirement Research Foundation	<a href="#">Research Grant</a>	Up to \$250,000	Retirement, Aging, Advocacy	Proposals are sought for RRF's <b>Responsive Grants Programs</b> . The areas of interest include advocacy, direct service, professional education and training, and research seeking causes and solutions to significant problems for older adults.

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/1/2020 4/1/2021	Brady Education Foundation	<a href="#">Research Grant</a>	Up to \$100,000 per year	Education	The Foundation pursues its mission by promoting collaboration between researchers and educators via the funding of program development and program evaluations in education. Currently, the Foundation is particularly focused on evaluating the effectiveness of programs designed to promote positive cognitive and/or achievement outcomes for children (birth through 18 years) from underserved groups and/or low-resourced communities (minority ethnic groups, low-income families).
12/2/2020	Morris Animal Foundation	<a href="#">Research Grant</a>	Up to \$50,000	Veterinary Medicine, Canines, Canine Perianal Fistulas	The <b>Morris Animal Foundation</b> is accepting proposals for the study of canine perianal fistulas. They are seeking innovative research likely to make a material difference to the prevention or medical management of this disease. This may include studies that improve understanding of the pathogenesis and therefore unlock pathways to clinical progress - including genetic susceptibility, immunological aspects and involvement of microbial populations. They are interested in projects focused on German shepherd dogs, with this breed comprising more than 80% of the relevant patient population.
12/2/2020	Bill & Melinda Gates Foundation	<a href="#">Research Grant</a>	\$100,000	Infectious Disease, Malaria	The purpose of the <b>New Approaches to Integrating Molecular Surveillance into Malaria Control Programs Grand Challenge</b> is to identify new and innovative approaches to integrating malaria molecular surveillance into malaria surveillance and programmatic decision-making in malaria endemic countries. They are looking for innovative proposals that will use Malaria Molecular Surveillance (MMS) data to enable WHO's Malaria Policy Advisory Committee to inform their national and sub-national surveillance efforts, national strategic planning, and/or intervention implementation. <b>They will not consider funding for: Proposals that do not include an investigator from a malaria-endemic country; Proposals that do not include an explicit partnership with the NMCP, MOH or other authority responsible for malaria surveillance and control in the country / region; Proposals that do not demonstrate how the results will immediately influence malaria decision-making by the relevant NMCP, MOH or other authority.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/2/2020	Rivkin Center for Ovarian Cancer	<a href="#">Research Grant</a>	<b>Pilot:</b> \$75,000 (over 2 years)  <b>Scientific Scholar:</b> \$120,000 (over 2 years)	Medical Research, Ovarian Cancer, Translational, Early Career	The Rivkin Center has multiple streams of funding to support ovarian cancer research. <b>Pilot Study Program</b> awards will support investigator initiated projects in all areas of ovarian cancer research. In addition, projects designed to analyze data from already funded clinical trials will be considered. <b>Scientific Scholar Awards</b> are intended to assist promising laboratory and clinical scientists in pursuing a career as an independent investigator in ovarian cancer research. <b>Candidates should be at the post-doc/fellow, instructor, research assistant, or assistant professor level with no more than 3-4 years in any of these positions.</b>
12/3/2020	Camille & Henry Dreyfus Foundation	<a href="#">Prize</a>	\$250,000	Chemistry	The <b>Dreyfus Prize in the Chemical Sciences</b> is awarded to an individual in a selected area of chemistry to recognize exceptional and original research that has advanced the field in a major way. <b>Self-nominations are not accepted.</b>
12/4/2020	Arthroscopy Association of North America	<a href="#">Research Grant</a>	Up to \$100,000	Medical Research, Translational	The <b>AANA Research Committee</b> distributes grants for clinical or basic science research in the field of arthroscopic surgery or disorders amenable to arthroscopic treatment.
12/4/2020 4/15/2021 8/19/2021	Searle Freedom Trust	<a href="#">Research Grant</a>	\$25,000 - \$300,000	Public Policy	The <b>Searle Freedom Trust</b> is primarily interested in supporting domestic public policy research. Recognizing that good policymaking relies on the availability of high-quality research, the foundation invests primarily in scholarship that results in the publication of books, journal articles, and policy papers. Funding is typically provided in the form of research grants, fellowships, and other types of targeted project support.
12/4/2020 (Pre-Proposal)	Tourette Association of America	<a href="#">Research Grant</a>	Up to \$160,000 (over 2 years)	Medical Research Tourette Syndrome, Translational, Early Career	With their <b>TAA Young Investigator Award</b> , The Tourette Association of America aims to encourage early career researchers to invest their efforts and expertise in increasing our biological understanding of Tourette Syndrome, pursuing clinical research aimed at improving patient care, and developing and testing new therapies. <b>The award is open to post-doctoral fellows, and independent clinical/research faculty members within 5 years of their first independent faculty appointment at the time of pre-proposal application submission.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/4/2020 (LOI) 3/16/2021 (LOI)	Terra Foundation for American Art	<a href="#">Research Grant</a>	Up to \$25,000	Visual Arts	The <b>Terra Foundation for American Art</b> actively supports projects that encourage international scholarship on American art topics, as well as scholarly projects with focused theses that further research of American art in an international context. Academic program funding is available for in-person exchanges such as workshops, symposia, and colloquia that advance scholarship in the field of American art (circa 1500–1980) that take place in Chicago or outside the United States, or in the United States and examine American art within an international context and include a significant number of international participants.
12/7/2020	Cystic Fibrosis Foundation	<a href="#">Research Grant</a>	\$250,000 (over 2 years)	Medical Research, Cystic Fibrosis. Translational	Research grants are intended to support basic science research. Studies may be carried out at the subcellular, cellular, animal, or patient levels. To be considered, proposals must be hypothesis-driven and provide sufficient preliminary data to justify Cystic Fibrosis Foundation support. Priority will be placed on those projects that propose to better understand the mechanisms behind disease pathophysiology and to develop strategies to prevent or treat CF.
12/8/2020	DKMS Stiftung Leben Spenden (Foundation for Giving Life)	<a href="#">Research Grant</a>	Up to \$266,000 (over 3 years)	Medical Research, Translational, Stem Cells, Early Career	The <b>John Hansen Research Grant</b> is intended to provide funding support to promising and developing researchers to advance the understanding of complications and therapeutic strategies in context of hematopoietic cell transplantation and/or cellular therapies for hematologic malignancies. The research proposal must address issues on blood cancer and hematopoietic transplantation. Various aspects may be covered including but not restricted to transplant immunology, stem cell donation, cell manufacturing, diagnostic and therapeutic strategies. <b>Applicants must have a doctoral degree (M.D., Ph.D., or equivalent) in a field pertinent to the award within the past eight years.</b>
12/9/2020	Morris Animal Foundation	<a href="#">Research Grant</a>	Up to \$50,000	Veterinary Medicine, Canines, Subvalvular Aortic Stenosis	The <b>Morris Animal Foundation</b> is accepting proposals for the study of subvalvular aortic stenosis in the Newfoundland dog breed. There is particular interest in research focused on causation, mechanisms of disease, preventative measures, and/or large-scale studies of therapeutics. Other approaches that are innovative and likely to generate clinical impact also are welcome.

RFPs for External Non-Federal Funding Opportunities as of November 1, 2020

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
12/11/2020	Misophonia Research Fund	<a href="#">Research Grant</a>	Up to \$400,000 (over 2 years)	Medical Research, Misophonia, Translational	The <b>Misophonia Research Fund (MRF)</b> is accepting applications for one- to two-year research projects that seek to better understand misophonia, diagnose people who have the condition, and assess interventional strategies to treat people who have the condition. <b>Institutions can submit more than one proposal, but each proposal must be led by a unique PI.</b>
12/11/2020	Aligning Science Across Parkinsons	<a href="#">Research Grant</a>	Up to \$9,000,000 (over 3 years)	Medical Research, Translational, Parkinson's Disease, Early Career	The <b>Aligning Science Across Parkinson's (ASAP)</b> initiative will accept applications to support multidisciplinary research teams to form the ASAP Collaborative Research Network. ASAP seeks to fund research projects to address key knowledge gaps in the basic mechanisms that contribute to Parkinson's development and progression. Applications must focus on biology of PD-associated genetics or neuro-immune interactions. <b>Teams are required to be multidisciplinary and multi-institutional. Each Team should consist of at least three (3), but not more than five (5) Core Leadership members, including: A Coordinating Lead Principal Investigator (PI) and up to four additional Co-Investigators. All Core Leadership members are required to allocate 25% effort to the project. at least one of these investigators must be an early career investigator (ECI) within one (1) to seven (7) years of their first independent appointment. For the purposes of this award, an ECI should have attained their first independent appointment no earlier than 9/30/2014 and no later than 9/30/2020.</b>

 Sam Ernst, Associate Director of Foundation Relations  
 sam.ernst@colostate.edu / 970.491.3491

\* Restricted Opportunity: Internal selection precedes submission to the sponsor. See link for details.

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/14/2020	Winn Feline Foundation	<a href="#">Research Grant</a>	<b>Winn Grants:</b> Up to \$30,000  <b>New Investigators:</b> \$25,000	Veterinary Medicine, Feline, Early Career	Proposals are sought in three programs: <b>Winn Grant Award, New Feline Investigator, and Feline Genomics New Investigator Grant Award. Winn Grant Awards</b> support studies applicable to all cats and all aspects pertaining to feline health are encouraged. In this grant cycle, there is immediate interest in projects that address issues in behavior and, in particular, diabetes mellitus. The foundation also has dedicated funds for research in feline infectious peritonitis (Bria Fund) and heart disease along with hypertrophic cardiomyopathy (Ricky Fund). Breed-specific special funds are available for Norwegian Forest Cat and Persian HCM studies, Birman heart disease studies, health issues in Abyssinians, and amyloidosis in Siamese and Oriental Shorhair-related breeds. Additional funding is available for research related to diagnosis, prevention, or treatment of inflammatory disease or abdominal cancer (liver, pancreas, intestinal tract) in cats. <b>New Feline Investigator awards and Feline Genomics New Investigator awards are for those in a DVM/PhD program pathway. These applicants must serve as the PI for the given proposal.</b>
12/15/2020	American Educational Research Association (AERA)	<a href="#">Research Grant</a>	Up to \$25,000 (for 1 year projects)  Up to \$35,000 (over 2 years)	STEM Education, Learning, Policy	The <b>AERA Grants Program</b> supports highly competitive studies using rigorous quantitative methods to examine large-scale, education-related data. This research program is designed to advance knowledge and build research capacity in education and STEM education and learning. The Grant Program encourages proposals across the life span and contexts of education and learning of relevance to STEM policy and practice. <b>Applicants must have received their doctoral degree at the start of the award. Researchers who have previously received Research Grants through the AERA Grants Program (as a PI or Co-PI) may not apply for a Research Grant.</b>

RFPs for External Non-Federal Funding Opportunities as of November 1, 2020

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
12/15/2020	American Council of Learned Societies	<a href="#">Research Grant</a>		Arts & Humanities, Social Sciences	ACLS invites applications for <b>ACLS Digital Extension Grants</b> , which are made possible by The <b>Andrew W. Mellon Foundation</b> . This program supports digitally based research projects in all disciplines of the humanities and related social sciences. It is hoped that these grants will help advance humanistic scholarship by enhancing established digital projects, extending their reach to new communities of users, and supporting teams of scholars at all career stages as they participate in digital research projects. <b>Project's principal investigator must be a scholar in a field of the humanities and the humanistic social sciences. Principal investigator must have a PhD degree conferred prior to the application deadline.</b>
12/15/2020	Temper of the Times Foundation	<a href="#">Programmatic Grant</a>	\$5,000 -\$15,000	Conservation, Education, Outreach	<b>Grants (for Projects to Increase Awareness about Wildland Ecosystem Conservation and Restoration)</b> are awarded for projects that will lead to measurable outcomes for wildland ecosystem conservation and restoration in the United States. Grants may be used to fund the production of print, radio, or television ads, to pay for advertising space or airtime, or to produce or distribute pamphlets, books, videos, or press packets. <b>Because grants are for wildland ecosystem advertising campaigns, not for general organizational support, they may not be used to cover costs associated with the production of organization newsletters, membership campaigns, or for staff salaries.</b>
12/15/2020 <b>Limited Submission: Apply through Research Acceleration Office</b>	NextFifty Initiative	<a href="#">Research Grant</a>  <a href="#">RAO Limited Submission</a>	Up to \$750,000	Ageing, Social Science, Community Programs	Through its grant making, <b>NextFifty Initiative</b> seeks to identify and partner with organizations that are working to improve the lives of the current aging population and craft an exciting future for aging. In addition, NextFifty Initiative seeks projects that target the most vulnerable in the aging sector including low income individuals, ethnic and racial minorities, the homeless and LGBT communities. <b>Projects must be directed toward the aging or the aging-disabled population age 50 and over.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
12/31/2020 (LOI)	Health and Environmental Sciences Institute	<a href="#">Research Grant</a>	\$20,000 - \$50,000 (over 2 years)	Medical Research, Cancer, Translational	The <b>THRIVE grant program</b> is designed to provide seed funding to investigators for the testing of initial hypotheses and collecting of preliminary data to help secure long-term funding by the National Institutes of Health and/or other major granting institutions. THRIVE is interested in research that will advance our: Fundamental understanding of cancer drug or therapy-related toxicity; Ability to identify and translate critical biomarkers of toxicity; Models (in vitro, in vivo, in silico) of pediatric or adult drug exposure that predict early or impending toxicities; Understanding the role of protective co-therapies or modified exposure protocols on the onset of therapy-induced damage; and Identification of novel protective therapies or dosing strategies. <b>PI's must hold and MD, PhD, DVM or equivalent degree. Candidates for these degrees along with their PI may apply.</b>
12/31/2020 4/30/2021 8/31/2021	The Elsa U. Pardee Foundation	<a href="#">Research Grant</a>	Up to \$200,000	Medical Research, Cancer	The foundation funds research directed toward new treatments or cures for cancer. They particularly encourage grant applications for a one-year period which allows establishment of capabilities of new cancer researchers, or new cancer approaches by established cancer researchers. Project relevance to cancer detection, treatment or cure should be clearly identified.
1/1/2021 7/1/2021	Fibrolamellar Cancer Foundation	<a href="#">Research Grant</a>	Up to \$180,000	Medical Research, Cancer, Fibrolamellar Hepatocellular Carcinoma, Translational	The <b>Fibrolamellar Cancer Foundation</b> is accepting proposals to support innovative research, leading to curative treatments for this aggressive teen/young adult liver cancer. The research must focus on fibrolamellar hepatocellular carcinoma. Studies should be intended to advance knowledge in the areas of FL-CC. Of particular interest are those showing a clear path to clinical trials. <b>Collaboration and open sourcing is a requirement for FCF funding and will be so specified in any grant agreement.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/1/2021 (LOI)	A-T Children's Project	<a href="#">Research Grant</a>	Up to \$150,000 (over 2 years)	Medical Research, Ataxia- Telangiectasia, Translational	The <b>A-T Children's Project</b> provides competitive awards for basic science, translational and clinical research grants related to ataxia-telangiectasia. Scientific excellence and relevance to A-T are the paramount criteria used to select supported research projects. A-TCP's current focus is on funding innovative research strategies that look at A-T in new ways and that include a clear "yes" or "no" answer to the hypotheses rather than merely defining a mechanism. Highest priority is given to projects that, while drawing on basic discoveries, include creative strategies for suggesting and evaluating specific disease-modifying and symptomatic interventions.
1/4/2021 (LOI)	Progeria Research Foundation	<a href="#">Research Grant</a>	Up to \$150,000 (over 2 years)	Medical Research, Progeria, Translational	The <b>Progeria Research Foundation</b> awards grants to applicants who seek to conduct research to find the cause, treatment, or cure for Hutchinson-Gilford Progeria Syndrome (Progeria, or HGPS). PRF's research focus is highly translational. Topics must fall within the following research priorities: Projects that are likely to lead to clinical treatment trials within 5 years, development of gene- and cell-based therapies to treat Progeria or assessment of natural history of disease that may be important to developing outcome measures in treatment trials (preclinical or clinical).
1/4/2021	The McKnight Endowment Fund for Neuroscience	<a href="#">Research Grant</a>	Up to \$225,000 (over 3 years)	Medical Research, Neuroscience, Early Career	The <b>McKnight Scholar Award</b> encourages neuroscientists in the early stages of their careers to focus in disorders of learning and memory. Preference is given to applicants working on problems that, if solved at the basic level, would have an immediate and significant impact on clinically relevant issues. <b>Applicants must have an M.D., Ph.D., or other suitable degree and have evidence of a commitment to a career in neuroscience. Applicants must also have a full-time appointment to the rank of assistant professor and have served for no more than four years. Applicants may not apply in more than two rounds of competition.</b>
1/10/2021	Volvo Environment Prize Foundation	<a href="#">Prize</a>	\$150,000	Life Sciences, Environmental Sustainability, Ecology	The Volvo Environment Prize Foundation is seeking nominations for the <b>Volvo Environment Prize</b> . Past laureates represent all fields of environmental and sustainability studies and initiatives. The research of nominees should be based on scientific grounds but must clearly show impacts outside of the specific discipline. <b>Self-nominations are not accepted.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/10/2021	The Klingenstein Third Generation Foundation	<a href="#">Research Grant</a>	\$100,000 (over 2 years)	Medical Research, Pediatrics, Translational, Social Sciences	<b>The Klingenstein Third Generation Foundation</b> is soliciting applications for investigator-initiated proposals to demonstrate the benefits of new health care delivery methods or prevention approaches. They are particularly interested in funding applications that build on promising pilot work and aim to develop larger demonstration projects. In particular, the KTGF is most interested in improving access to mental health care for children and expanding the number of professional and paraprofessional treatment personnel who are trained to deliver mental health services. <b>Investigators can be at any stage in their career but must have collected enough pilot data to inform the development of the proposed project.</b>
1/10/2021 7/15/2021	Leakey Foundation	<a href="#">Research Grants</a>	Up to \$25,000	Biology, Human Origins, Social Sciences	The <b>Leakey Foundation</b> exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation.
1/10/2021	PADI Foundation	<a href="#">Research Grant</a>	Up to \$20,000	Biology, Aquatic Ecosystems, Education	The <b>PADI Foundation</b> encourages and supports research and education related to aquatic environments. The Foundation will fund and assist worthwhile projects that enrich mankind's understanding of aquatic environments and encourage sensitivity to and protection of ecosystems, increase understanding of sport diving physics and physiology that will benefit the general diving public and add to the scientific understanding of man's relationship and ability to survive in the underwater environment, or improve understanding of, and response to, hazards to humans and ecosystems related to climate change in coastal and ocean environments.

RFPs for External Non-Federal Funding Opportunities as of November 1, 2020

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/13/2021	National Psoriasis Foundation	<a href="#">Research Grants</a>	Milestones to a Cure: Up to \$100,000  Discovery: Up to \$75,000  Translational: Up to \$100,000	Medical Research, Psoriasis, Translational	The <b>National Psoriasis Foundation</b> is seeking grant applications for several projects. The <b>Milestones to a Cure Research Grant</b> is seeking applications from researchers interested in conducting projects focused on psoriatic disease. The goal of this award is to support research with an aim focused on treatment durability, remission/relapse, prevention and personalized medicine. <b>Discovery Grants</b> are seeking applications that encourage the advancement of innovative research into psoriasis, psoriatic arthritis, and related comorbidities. Discovery Grants fund researchers while they explore preliminary ideas and conduct proof-of concept experiments. <b>Translational Research Grants</b> seeks applications that encourage the advancement of innovative research into psoriasis and psoriatic arthritis. Translational Research Grants fund research initiatives that focus on the rapid translation of basic scientific discoveries into clinical applications with a clear benefit for patients with psoriatic disease.
1/15/2021	Cancer Research Institute	<a href="#">Research Grant</a>	\$1,250,000 (over 5 years)	Medical Research, Cancer, Mid-Career, Translational	CRI <b>Lloyd J. Old STAR Program—Scientists Taking Risks</b> —will provide long-term funding to mid-career scientists providing them the freedom and flexibility to pursue high-risk, high-reward research at the forefront of discovery and innovation. These grants will not be tied to a specific research project, but rather support outstanding researchers based on the quality and promise of their overall work. Candidates selected for this award are expected to be the future leaders in the field of cancer immunotherapy, and this sustained funding will enable them to carry out transformational research. <b>Applicants must belong to one of the following categories as of July 1, 2020: Tenure-track assistant professor with a minimum of 3 years in this position (appointed on or before July 1, 2017) or Tenure-track associate professor with a maximum of 3 years in this position (appointed on or after July 1, 2017).</b>

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/15/2021	Association for Computing Machinery	<a href="#">Award</a>	Paris Kanellakis Theory and Practice Award: \$10,000  Grace Murray Hopper Award: \$35,000  A.M. Turing Award: \$1,000,000	Engineering, Physical Science, Computer Science	The Association for Computing Machinery is seeking nominations for 3 awards. <b>The Paris Kanellakis Theory and Practice Award</b> honors specific theoretical accomplishments that have had a significant and demonstrable effect on the practice of computing. Nominations will be reviewed on the basis of the candidate's publication of novel and solid theoretical work, how that work has translated into applications, and the impact of the theory and applications. <b>The Grace Murray Hopper Award</b> recognizes the outstanding young computer professional of the year, selected on the basis of a single recent major technical or service contribution. <b>The candidate must have been 35 years of age or less at the time the qualifying contribution was made.</b> Nominations will be evaluated for the significance, depth, and originality of the technical contribution or – in the case of a service contribution – the scope of the effort involved and its impact on the computing community and/or society as a whole. <b>The A. M. Turing Award</b> is ACM's oldest and most prestigious award. It is presented annually to an individual who has made lasting contributions of a technical nature to the computing community. Although the long-term influences of the nominee's work are taken into consideration, there should be a particular outstanding and trend-setting technical achievement that constitutes the principal claim to the award.
1/15/2021 (opens 12/1)	Arthritis National Research Foundation	<a href="#">Research Grant</a>	Up to \$100,000	Medical Research, Arthritis, Translational, Early Career	The <b>Arthritis National Research Foundation</b> provides a variety of arthritis research grants for research scientists working on arthritis and related autoimmune diseases. <b>All Arthritis</b> - Seeks grant applications that focus on studying arthritis and related autoimmune diseases including but not limited to: osteoarthritis, rheumatoid arthritis, juvenile arthritis, lupus, psoriatic arthritis, gout, scleroderma, fibromyalgia, ankylosing spondylitis. <b>Arthritis &amp; Aging</b> - Seeks grant applications that focus on studying the underlying mechanisms by which aging processes contribute to the development of arthritis. <b>For all awards, priority will be given to meritorious applications from newer, M.D. and/or Ph.D. applicants in early stage career development (equivalent to assistant professor and without serving as PI on an NIH R01 award).</b>

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/15/2021 (LOI) 4/15/2021 (LOI)	Whitehall Foundation	<a href="#">Research Grant</a>	Research Grants: Up to \$225,000 (over 3 years)  Grants-in-Aid: Up to \$30,000	Life Sciences, Biological Research	It is the Foundation's policy to assist those dynamic areas of basic biological research that are not heavily supported by Federal Agencies or other foundations with specialized missions. <b>Research Grants</b> are available to established scientists of all ages working at accredited institutions in the United States. The <b>Grants-in-Aid program</b> is designed for researchers at the assistant professor level who experience difficulty in competing for research funds because they have not yet become firmly established. <b>The Foundation will accept only one letter of intent per year from an Investigator.</b>
1/15/2021 (LOI) 4/1/2021 (LOI)	Samuel H. Kress Foundation	<a href="#">Research Grant</a>	Up to \$100,000	Visual Arts, Art History, Art Education	The <b>History of Art</b> program supports scholarly projects that will enhance the appreciation and understanding of European art and architecture. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, museum exhibitions and publications, photographic campaigns, scholarly catalogues and publications, and technical and scientific studies. Grants are also awarded for activities that permit art historians to share their expertise through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, and other professional events.
1/18/2021	Polycystic Kidney Disease Foundation	<a href="#">Research Grant</a>	Up to \$160,000 (over 2 years)  Young Investigator Award: An additional 3rd year of support up to \$80,000	Medical Research, Kidney Diseases, Translational, Early Career	The principal goal <b>PKD Foundation Research Grants</b> is the development of clinical interventions for the treatment of PKD. This program funds basic laboratory research aimed at increasing understanding of the genetic and pathological processes involved in PKD as well as research with an obvious or direct potential to accelerate the development of potential therapies. Epidemiologic research proposals utilizing existing data resources to develop new statistical methodologies or to test hypotheses are also welcome. <b>Young Investigator Award criteria: No other career development award may be held or accepted (e.g., NIH K-award or equivalent). No major research award may be held or accepted (e.g., NIH R01 or equivalent). No more than 5 years from completing post-doctoral or clinical fellowship training.</b>

1/19/2021	Lupus Research Institute	<a href="#">Prize</a>	\$100,000	Medical Research, Lupus, Translational	The <b>Lupus Research Alliance</b> requests nominations for the <b>2021 Lupus Insight Prize</b> recognizing and honoring significant scientific insights relevant to understanding the causes, pathogenesis, or treatment of lupus. The primary objective of the prize is to identify and recognize an outstanding investigator who has developed a novel research insight in scientific domains relevant to lupus. The prize also aims to stimulate further advances leading to improved outcomes for patients with lupus and ultimately to a cure. <b>Co-Investigators or teams of investigators are not eligible for this Prize. Only one nomination will be accepted per investigator. Self-nominations are not allowed.</b>
1/28/2021	Simons Foundation	<a href="#">Award</a>	Up to \$42,000 (Over 5 years)	Mathematics	The Simons Foundation's Mathematics and Physical Sciences division invites applications for <b>Collaboration Grants for Mathematicians</b> to stimulate collaboration in the field primarily through the funding of travel and related expenditures. The goal of the program is to substantially increase collaborative contacts between accomplished, active mathematicians in the United States, who do not otherwise have access to funding that allows support for travel and visitors. <b>To be eligible to apply, an individual must have a current record of active research and publication in high-quality journals and not currently hold any other external PI or co-PI grant.</b>
1/31/2021	National Pancreas Foundation	<a href="#">Research Grants</a>	\$50,000	Medical Research, Early Career	Research grants support research with a direct relevance to the diagnosis and/or treatment of pancreatitis, pancreatic cancer or other pancreas diseases. Studies intended to advance knowledge in the areas of pancreatic carcinoma, and all forms of pancreatitis would be the closest to the areas of interest of the NPF. <b>Applicants be a physician <u>or</u> hold an advanced degree (MD, DO, PhD or international equivalent) working in any country within 10 years of obtaining his/her medical degree at the time of grant submission.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/31/2021	Center for Retirement Research at Boston College	<a href="#">Research Grant</a>	\$45,000	Social Science, Behavioral Science, Public Policy, Retirement, Disability	The <b>Center for Retirement Research</b> sponsors the annual <b>Steven H. Sandell Grant Program</b> for scholars in the field of retirement or disability research and policy. It provides opportunities scholars from any academic discipline to pursue cutting-edge projects on retirement or disability issues. Research focus areas include trends in disability and survey issues; informing long-term projections and models; state and local pensions for non-covered workers; actuarial adjustment of benefits; economic effects of totalization agreements; measuring sources of income; risks and resources in older age; induced entry; opioids; and claimant representatives. <b>The PI and the Co-PI(s) must be junior or non-tenured scholar(s) who are within 1-7 years of completing their Ph.D. or comparable professional certification.</b>
2/1/2021	Women's Film Preservation Fund	<a href="#">Grant</a>	Up to \$10,000	Film Preservation	The <b>Women's Film Preservation Fund</b> seeks proposals for the preservation or restoration of American films, from any era, in which women have held significant creative positions, including, but not limited to, writer, director, producer, editor and performer. Currently, the Women's Film Preservation Fund gives grants for film-to-film preservations which result in film-based archival elements including a film negative and a print. In special cases, the WFPF may permit digital preservations without the making of a film negative and print, but they will be considered on a case by case basis. Deliverables must also include a digital file of the preserved film.
2/1/20201 (LOI) 7/15/2021 (LOI)	Friedreichs Ataxia Research Alliance	<a href="#">Research Grant</a>	Up to \$300,000 (over 2 years)	Medical Research, Neuroscience, Early Career	<b>General Research Grants</b> are open to qualified investigators proposing projects that fall within FARA Research Priorities: advancing understanding of neuroscience, advancing understanding of cardiac disease in FA, advance drug discovery, facilitate the drug development process and translational research, and advance clinical research. <b>FARA encourages applications from junior investigators and young clinicians.</b>

RFPs for External Non-Federal Funding Opportunities as of November 1, 2020

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/15/2021 (LOI)	Eppley Foundation for Research	<a href="#">Research Grant</a>	Up to \$30,000	Chemistry, Physics, Biology, Ecology, Climate Change	Proposals are sought that increase knowledge in chemistry, physics and biology through study, research and publication. <b>The Foundation does not support work in the social sciences, education or computer science, and only rarely funds research into diseases that have considerable financial support available, such as AIDS, diabetes, cancer and heart disease.</b> Particular areas of interest include innovative medical investigations, climate change, whole ecosystem studies, as well as research on single species if they are of particular significance in their environments, in the U.S. and abroad. <b>The Foundation does not fund work that can qualify for funding from conventional sources such as the National Science Foundation or the National Institutes of Health, or similar agencies at the state level.</b> It is important to the Foundation that the work proposed be novel in its insights and unlikely to be underway elsewhere. <b>PhDs or MDs with an established record of publication in their specialties are eligible. Candidates with newly awarded doctorates occasionally, but rarely, meet the Foundation's requirements for advanced research.</b>
3/23/2021	American Epilepsy Society	<a href="#">Seed Grant</a>	Up to \$20,000	Medical Research, Epilepsy, Translational	The <b>AES Seed Grant Program</b> provides support to established investigators to pursue new and innovative directions in epilepsy research, bring new research methods to their research programs, and begin new collaborations with other investigators in epilepsy or in different, complementary disciplines. These small awards are designed to enable preliminary investigations that will lay the groundwork for subsequent substantial grants from government, industry, or other funding sources for research to advance the understanding, treatment, and prevention of epilepsy. <b>The proposed research must be in a new direction that could not be initiated without Seed support.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
4/1/2021	IBM Center for The Business of Government	<a href="#">Research Grant</a>	\$20,000	Social Science, Government Management, Public Policy	The aim of the <b>IBM Center for The Business of Government</b> is to tap into the best minds in academe and the nonprofit sector who can use rigorous public management research and analytic techniques to help public sector executives and managers improve the effectiveness of government. They are looking for very practical findings and actionable recommendations - not just theory or concepts - in order to assist executives and managers to more effectively respond to mission and management challenges.
4/1/2021	Fahs-Beck Fund for Research and Experimentation	<a href="#">Research Grant</a>	Up to \$20,000	Social Science, Public Health, Psychology	Grants are available to help support the research of faculty members or post-doctoral researchers affiliated with non-profit human service organizations in the United States and Canada. Areas of interest to the Fund are: studies to develop, refine, evaluate, or disseminate innovative interventions designed to prevent or ameliorate major social, psychological, behavioral or public health problems affecting children, adults, couples, families, or communities, or studies that have the potential for adding significantly to knowledge about such problems. <b>The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.</b>
4/8/2021	The Camille & Henry Dreyfus Foundation	<a href="#">Research Grant</a>	Unlimited	Machine Learning, Chemistry, Engineering	The Dreyfus program for <b>Machine Learning in the Chemical Sciences and Engineering</b> provides funding for innovative projects in any area of Machine Learning (ML) consistent with the Foundation's broad objective to advance the chemical sciences and engineering. The Foundation anticipates that these projects will contribute new fundamental chemical insight and innovation in the field. <b>Principal investigators are limited to one proposal annually.</b>
4/15/2021	Angelman Syndrome Foundation	<a href="#">Research Grant</a>	Up to \$200,000 (over 2 years)	Medical Research, Angelman Syndrome, Translational	The Angelman Syndrome Foundation is calling for proposals for pilot projects to test new ideas about pathogenesis and therapeutics of Angelman syndrome, translational research and clinical research studies. Of particular interest to the ASF are studies related to communication, behavioral issues and identification of issues and treatments that impact the daily life of people with Angelman syndrome and their families.

Rolling	Robert Wood Johnson Foundation	<a href="#">Research Grant</a>	Average Award: \$315,031 (over 1-3 years)	Health Equity, Arts & Humanities, Sociology, Business	<b>Pioneering Ideas: Exploring the Future to Build a Culture of Health</b> seeks proposals that are primed to influence health equity in the future. They are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. They want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come.
Rolling	Social Science Research Council	<a href="#">Research Grant</a>	Up to \$50,000	Social Sciences, Social Media	Proposals for the <b>Social Media and Democracy Research Grants</b> should examine the impact of social media and related digital technology on democracy and elections, generate insights to inform policy at the intersection of media, technology, and democracy, and advance new avenues for future research. Researchers who's proposals are selected for support will receive research funding via the Social Science Research Council and access to Facebook data via Social Science One. The first dataset is a database of Facebook URL shares; details about these data, including the codebook can be found at the Social Science One Dataverse repository.

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
Rolling	Found Animals Foundation	<a href="#">Research Grant</a>	Up to \$750,000 (over 3 years)	Veterinary Medicine, Sterilization	Michelson Grants provide funding for research in pursuit of a single-dose, permanent, nonsurgical sterilization product or technology for use in male and female dogs and cats. Investigators are encouraged to submit for "proof of concept" studies in cell culture or rodents (in certain cases), and/or in dogs and cats. When developing a potential approach, applicants should consider the program's goal of bringing to market a low-cost, permanent, nonsurgical sterilant or sterilants that will have a maximum impact in addressing populations of animals driving shelter intake. Strong preference will be given to projects with the potential to produce a prize-winning product or technology, and approaches must represent a significant improvement over existing products. <b>To qualify for a Michelson Grant, a proposed project must pursue a technology, mechanism, or pathway representing an innovative approach to nonsurgical sterilization.</b>
Rolling	Michael J. Fox Foundation for Parkinson's Research	<a href="#">Research Grant</a>	\$2,000,000	Medical Research, Parkinson's Disease	The <b>Alpha-Synuclein Imaging Prize</b> will go to the first team to develop a viable selective alpha-synuclein PET tracer and agree to make that tracer available broadly. In vivo imaging of alpha-synuclein pathology could be useful as a biomarker of the presence of Parkinson's Disease and disease progression and as a pharmacodynamic tool for drug development. <b>There is no deadline for submissions. The award will be issued to the first contestant who submits compelling evidence of a viable selective tracer and agrees to its widespread use.</b>

**RFPs for External Non-Federal Funding Opportunities as of November 1, 2020**

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling	Smith Richardson Foundation	<a href="#">Research Grant</a>	Up to \$300,000	Public Policy	The <b>Domestic Public Policy Program</b> supports projects that will help the public and policy makers understand and address critical challenges facing the United States. To that end, the Foundation supports research on and evaluation of existing public policies and programs, as well as projects that inject new ideas into public debates. Grant making portfolios include: identifying mechanisms that can inform thinking on fiscal practices at the national, state, and municipal levels; identifying how schools can become more productive (including post-secondary education); and whether costs can be lowered in the criminal justice system while still protecting public safety. <b>The Foundation has a two-stage application process. Initial inquiries should be submitted by mail in the form of the concept paper.</b>
