# \$50

average gift size

# 7,300

donors supporting scholarships

# \$40.3M

total dollars awarded from donor philanthropy

# 89%

graduation rate of students who receive scholarships

## A MESSAGE FROM THE DEAN

Thank you to our scholarship donors. Your investment in our students in the College of Natural Sciences means more than just financial support. It also shows our students that someone believes in them and their dreams – this is especially important this year as we all live through unprecedented times due to the COVID-19 pandemic.

**JAN NERGER**  
Dean, College of Natural Sciences

In the College of Natural Sciences, we study the foundational sciences – from how individual cells work, to complex statistical analysis, to the fundamental building blocks of the universe. The expertise that our students gain will be applied to every other field of study. When they graduate, our students are prepared to pursue careers that will transform the future of science and the future of our society. Your scholarship donations have allowed our students to focus on their education and pursue critical research and internship opportunities.

Thank you for your support and continued investment in our college.
