

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/14/2022 (pre-proposal)	Gordon and Betty Moore Foundation	<a href="#">Research Grant</a>	\$1,250,000 (over 5 years)	Experimental Physics	The <b>2022 Experimental Physics Investigators initiative</b> will provide support for creative mid-career individuals and their research teams to advance our understanding of physical phenomena and promote equity and inclusion in experimental physics communities. <b>Investigators must be conducting experimental physics research and have earned tenure (or equivalent) at their U.S. institution and be within four years of that appointment at the time of application.</b>
1/15/2022 9/15/2022	Les Paul Foundation	<a href="#">Grant</a>	Up to \$50,000	Music, Engineering, Hearing Loss	The <b>Les Paul Foundation</b> invites applications for its grants program, which awards grants to programs and projects that encourage innovation in music production and/or performance and to innovative STEM or STEAM programs for students and others in challenging situations. Proposals for medical research related to curing tinnitus and other hearing impairment issues are considered.
1/15/2022 (LOI) 4/15/2022 (LOI)	Whitehall Foundation	<a href="#">Research Grant</a>	<b>Research Grants:</b> Up to \$225,000 (over 3 years)  <b>Grants-in-Aid:</b> Up to \$30,000	Life Sciences, Biological Research	It is the Foundation's policy to assist those dynamic areas of basic biological research that are not heavily supported by Federal Agencies or other foundations with specialized missions. <b>Research Grants</b> are available to established scientists of all ages working at accredited institutions in the United States. The <b>Grants-in-Aid program</b> is designed for researchers at the assistant professor level who experience difficulty in competing for research funds because they have not yet become firmly established. <b>The Foundation will accept only one letter of intent per year from an Investigator.</b>
1/15/2022	PADI Foundation	<a href="#">Research Grant</a>	Up to \$12,000	Biology, Aquatic Ecosystems, Education	The <b>PADI Foundation</b> encourages and supports research and education related to aquatic environments. The Foundation will fund and assist worthwhile projects that enrich mankind's understanding of aquatic environments and encourage sensitivity to and protection of ecosystems, increase understanding of sport diving physics and physiology that will benefit the general diving public and add to the scientific understanding of man's relationship and ability to survive in the underwater environment, or improve understanding of, and response to, hazards to humans and ecosystems related to climate change in coastal and ocean environments.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/15/2022	Association for Computing Machinery	<a href="#">Award</a>	<p><b>Paris Kanellakis Theory and Practice Award:</b> \$10,000</p> <p><b>Grace Murray Hopper Award:</b> \$35,000</p> <p><b>A.M. Turing Award:</b> \$1,000,000</p>	Engineering, Physical Science, Computer Science	<p>The Association for Computing Machinery is seeking nominations for 3 awards. <b>The Paris Kanellakis Theory and Practice Award</b> honors specific theoretical accomplishments that have had a significant and demonstrable effect on the practice of computing. Nominations will be reviewed on the basis of the candidate’s publication of novel and solid theoretical work, how that work has translated into applications, and the impact of the theory and applications. <b>The Grace Murray Hopper Award</b> recognizes the outstanding young computer professional of the year, selected on the basis of a single recent major technical or service contribution. <b>The candidate must have been 35 years of age or less at the time the qualifying contribution was made.</b> Nominations will be evaluated for the significance, depth, and originality of the technical contribution or – in the case of a service contribution – the scope of the effort involved and its impact on the computing community and/or society as a whole. <b>The A. M. Turing Award</b> is ACM's oldest and most prestigious award. It is presented annually to an individual who has made lasting contributions of a technical nature to the computing community. Although the long-term influences of the nominee's work are taken into consideration, there should be a particular outstanding and trend-setting technical achievement that constitutes the principal claim to the award.</p>
1/15/2022	Cancer Research Institute	<a href="#">Research Grant</a>	\$1,250,000 (over 5 years)	Medical Research, Cancer, Mid-Career, Translational	<p><b>CRI Lloyd J. Old STAR Program—Scientists Taking Risks</b>—will provide long-term funding to mid-career scientists providing them the freedom and flexibility to pursue high-risk, high-reward research at the forefront of discovery and innovation. These grants will not be tied to a specific research project, but rather support outstanding researchers based on the quality and promise of their overall work. Candidates selected for this award are expected to be the future leaders in the field of cancer immunotherapy, and this sustained funding will enable them to carry out transformational research. <b>Applicants must belong to one of the following categories as of July 1, 2022: Tenure-track assistant professor with a minimum of 3 years in this position (appointed on or before July 1, 2019) or Tenure-track associate professor with a maximum of 3 years in this position (appointed on or after July 1, 2019).</b></p>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/15/2022 (LOI)	Friedreichs Ataxia Research Alliance (FARA)	<a href="#">Research Grant</a>	Up to \$300,000 (over 2 years)	Medical Research	The <b>Keith Michael Andrus Cardiac Research Award</b> supports projects that focus on advancing understanding and/or treatment of the cardiac involvement in FA.
1/17/2022	Arthritis National Research Foundation	<a href="#">Research Grant</a>	Up to \$100,000	Medical Research, Arthritis, Translational, Early Career	The <b>Arthritis National Research Foundation</b> provides a variety of arthritis research grants for research scientists working on arthritis and related autoimmune diseases. <b>All Arthritis</b> - Seeks grant applications that focus on studying arthritis and related autoimmune diseases including but not limited to: osteoarthritis, rheumatoid arthritis, juvenile arthritis, lupus, psoriatic arthritis, gout, scleroderma, fibromyalgia, ankylosing spondylitis. <b>Psoriatic Arthritis</b> - Opportunity for Psoriatic Arthritis research funding. Projects focused solely on PsA are encouraged to apply. <b>For all awards, priority will be given to meritorious applications from newer, M.D. and/or Ph.D. applicants in early stage career development (equivalent to assistant professor and without serving as PI on an NIH R01 award).</b>
1/18/2022 (LOI)	McElhattan Foundation	<a href="#">Grant</a>	Up to \$500,000 (over up to 3 years)	Workplace Violence, Technology	The <b>McElhattan Foundation</b> is inviting applications for grants in its workplace safety program area. Proposals may address workplace violence in general or a particular type of violence, a particular industry, or a particular type of workplace setting (e.g., retail, offices, schools, etc.). The foundation encourages innovative thinking that includes interdisciplinary approaches; projects that utilize emerging technology; and solutions that can be implemented at little or no cost to employers. <b>The foundation will not fund proposals seeking funding for anti-workplace violence training or technology for a single nonprofit organization; it is seeking proposals with a significantly larger vision and scope.</b>

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/18/2022	University of Louisville	<a href="#">Award</a>	\$100,000	Arts & Humanities	The University of Louisville offers the <b>Grawemeyer Award for Music Composition</b> in recognition of outstanding achievement by a living composer in a large musical genre: choral, orchestral, chamber, electronic, song-cycle, dance, opera, musical theater, extended solo work and more. The award will be granted for a work premiered during the five-year period prior to the award deadline (i.e. time period Jan.1, 2017 – Dec. 31, 2021 for the 2022 award). <b>Each entry for the Grawemeyer Music Award must be nominated by a professional musical organization or individual (performer or performing group, conductor, critic, publisher, or head of a professional music school or department). A composer may not submit his or her own work. No more than one work of any composer may be submitted.</b>
1/20/2022	Lupus Research Institute	<a href="#">Prize</a>	\$100,000	Medical Research, Lupus, Translational	The <b>Lupus Research Alliance</b> requests nominations for the <b>2022 Lupus Insight Prize</b> recognizing and honoring significant scientific insights relevant to understanding the causes, pathogenesis, or treatment of lupus. The primary objective of the prize is to identify and recognize an outstanding investigator who has developed a novel research insight in scientific domains relevant to lupus. The prize also aims to stimulate further advances leading to improved outcomes for patients with lupus and ultimately to a cure. <b>Co-Investigators or teams of investigators are not eligible for this Prize. Only one nomination will be accepted per investigator. Self-nominations are not allowed.</b>
1/21/2022	Amazon	<a href="#">Research Grant</a>	Up to \$80,000 and up to \$40,000 in AWS Promotional Credits	Engineering, Computer Science, Artificial Intelligence	With the <b>Alexa Fairness in AI call for proposals</b> , Amazon is seeking to fund research projects on the following topics: Transparency, explainability, and accountability in AI systems; Theories of computational/algorithm fairness and factors that affect algorithmic trustworthiness; Detecting and ameliorating adverse biases in data and algorithms, and fairness-aware design of algorithms; Metrics and methods for designing, piloting, and evaluating systems that mitigate against adverse biases and ensure fairness, including the use of human-machine collaboration and decision support.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/21/2022	National Psoriasis Foundation	<a href="#">Research Grants</a>	<p><b>Milestones to a Cure:</b> Up to \$100,000</p> <p><b>Discovery:</b> Up to \$75,000</p> <p><b>Translational:</b> Up to \$100,000</p> <p><b>More Than Skin Deep:</b> Up to \$100,000</p>	Medical Research, Psoriasis, Translational	The <b>National Psoriasis Foundation</b> is seeking grant applications for several projects. The <b>Milestones to a Cure Research Grant</b> is seeking applications from researchers interested in conducting projects focused on psoriatic disease. The goal of this award is to support research with an aim focused on treatment durability, remission/relapse, prevention and personalized medicine. <b>Discovery Grants</b> are seeking applications that encourage the advancement of innovative research into psoriasis, psoriatic arthritis, and related comorbidities. Discovery Grants fund researchers while they explore preliminary ideas and conduct proof-of concept experiments. <b>Translational Research Grants</b> seeks applications that encourage the advancement of innovative research into psoriasis and psoriatic arthritis. Translational Research Grants fund research initiatives that focus on the rapid translation of basic scientific discoveries into clinical applications with a clear benefit for patients with psoriatic disease. <b>More Than Skin Deep</b> seeks grant applications from researchers interested in conducting research focused on mental health and psoriatic disease. Grants will be awarded to projects focused on, but not limited to, investigation of psoriatic disease on mental health, as well as interventions for addressing this comorbidity, inflammatory processes, stigma, psychosocial impact of psoriasis, barriers to care, financial burden of chronic disease, or other related areas.
1/25/2022	National Fish and Wildlife Foundation	<a href="#">Programmatic Grant</a>	\$20,000 - \$50,000	Natural Sciences, Ecology, Education,	The <b>Five Star and Urban Waters Restoration grant program</b> seeks to develop community capacity to sustain local natural resources for future generations by providing modest financial assistance to diverse local partnerships focused on improving water quality, watersheds and the species and habitats they support. Projects should include a variety of ecological improvements along with targeted community outreach, education and stewardship.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/25/2022	American Educational Research Association	<a href="#">Research Grant</a>	\$35,000	Social Science, Education,	The <b>AERA Grants Program</b> supports highly competitive studies using rigorous quantitative methods to examine large-scale, education-related data. This research and training program is designed to advance knowledge and build research capacity in education and STEM education and learning. The Grants Program is open to field-initiated research and welcomes proposals that: develop or benefit from advanced statistical or innovative quantitative methods or measures; analyze more than one large-scale national or international federally funded data set, or more than one statewide longitudinal data system (SLDS) or incorporate other data enhancements; integrate, link, or blend multiple large-scale data sources; or undertake replication research of major findings or major studies using large-scale, federally supported or enhanced data. <a href="#">Underrepresented racial and ethnic minority researchers as well as women, individuals with disabilities, and veterans are strongly encouraged to apply.</a> <a href="#">Researchers who have previously received Research Grants through the AERA Grants Program (as a PI or Co-PI) may not apply for a Research Grant. However, applicants who have received an AERA Dissertation Grant are eligible to apply for a Research Grant.</a>
1/25/2022	American Federation for Aging Research	<a href="#">Award</a>	\$300,000	Medical Research, Aging	AFAR's <b>Breakthroughs in Gerontology (BIG)</b> initiative provides timely support to a small number of research projects which if successful offer significant promise of yielding transforming discoveries in the fundamental biology of aging. Projects which build on early discoveries that show translational potential for clinically relevant strategies, treatments and therapeutics, addressing human aging and health span are also considered. Projects that focus on specific diseases or on assessment of health care strategies will receive lower priority, unless the research plan makes clear and direct connections to fundamental issues in the biology of aging and/or on the translational aspects of basic discovery to human aging and healthspan. <a href="#">To be eligible, applicants must at the time they submit their proposal be full-time faculty members at the rank of Assistant Professor or higher. To be competitive at the Assistant Professor level, a candidate would be expected to have established RO1 or equivalent funding.</a>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/26/2022 (LOI)	Spencer Foundation	<a href="#">Research Grant</a>	Up to \$500,000 (over 5 years)	Education, Social Sciences	The <b>Large Research Grants on Education Program</b> supports education research projects that will contribute to the improvement of education, broadly conceived for projects ranging from one to five years. The goal for this program is to support rigorous, intellectually ambitious and technically sound research that is relevant to the most pressing questions and compelling opportunities in education. <b>PIs and Co-PIs applying for a grant must have an earned a doctorate in an academic discipline or professional field, or have appropriate experience in an education research-related profession.</b>
1/26/2022	Simons Foundation	<a href="#">Award</a>	Up to \$42,000 (Over 5 years)	Mathematics	The Simons Foundation's Mathematics and Physical Sciences division invites applications for <b>Collaboration Grants for Mathematicians</b> to stimulate collaboration in the field primarily through the funding of travel and related expenditures. The goal of the program is to substantially increase collaborative contacts between accomplished, active mathematicians in the United States, who do not otherwise have access to funding that allows support for travel and visitors. <b>To be eligible to apply, an individual must have a current record of active research and publication in high-quality journals and not currently hold any other external PI or co-PI grant.</b>
1/28/2022	Parkinson's Foundation	<a href="#">Programmatic Grant</a>	\$10,000 - \$25,000	Parkinson's Disease, Community Programs, Education and Outreach	The Parkinson's Foundation is inviting applications for its <b>Community Grants program</b> , which will award grants in support of community-based education and outreach programs that address unmet needs in the Parkinson's community. Programs may be new or existing grant-supported areas and/or pilot initiatives. In 2022, the community grant cycle will focus on: Programs that educate and deliver exercise specifically designed for people with Parkinson's; Initiatives that reach the newly diagnosed; Programs that address mental health and Parkinson's. <b>All funded organizations and institutions must demonstrate a commitment to diversity, equity, and inclusion.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/28/2022	John Templeton Foundation	<a href="#">Research Grant</a>	Up to \$230,000	Consciousness	<b>Templeton World Charity Foundation</b> is interested in Consciousness as a foundational concept at the center of our experience and interaction with the world. They seek to fund up to 15 projects that will produce new scientific evidence to further our understanding of consciousness. They are particularly interested in basic science research rather than developing or testing interventions for physical or mental health. Their interests include generating new evidence to substantially oppose or support existing theories of consciousness, or developing new scientific tools or frameworks to study consciousness.
1/28/2022	Welch Foundation	<a href="#">Prize</a>	\$500,000	Chemistry, Chemical Engineering	The purpose of <b>The Robert A. Welch Award in Chemistry</b> is to foster and encourage basic chemical research and to recognize, in a substantial manner, the value of chemical research contributions for the benefit of humankind. The award is intended to recognize contributions that have not previously been rewarded in a similar manner.
1/31/2022	American Vineyard Foundation	<a href="#">Research Grant</a>	Up to \$100,000	Viticulture, Biology, Enology, Outreach and Education	The <b>American Vineyard Foundation (AVF)</b> is soliciting research proposals for FY 2022-2023. The AVF is fully committed to addressing the industry's top research priorities. The AVF conducts an industry-wide survey to define the most current research priorities and they encourage researchers to develop proposals that address these priorities. To find lists of the most recent Viticulture & Enology research priorities, please visit the AVF website.
1/31/2022	Herb Society of America	<a href="#">Research Grant</a>	\$10,000	Biology, Horticulture, Social Science	The <b>HSA Research Grant</b> supports the research of the horticultural, scientific, and/or social use of herbs throughout history. Research must define an herb as historically useful for flavoring, medicine, economic, industrial, or cosmetic purposes and have the potential to significantly increase the knowledge of the field. <b>Eligible applicants may be professional researchers, educators, students, and other individuals interested in working with herbs. Only U.S. residents may apply.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
1/31/2022 (LOI)	Caplan Foundation for Early Childhood	<a href="#">Grant</a>	Up to \$100,000	Childhood Education, Childhood Welfare, Parenting Education	<b>Caplan Foundation for Early Childhood's</b> goal is to provide seed money to implement imaginative proposals that exhibit the greatest chance of improving the lives of young children, on a national scale. They fund projects in the following areas: <b>Early Childhood Welfare</b> - projects that seek to perfect child rearing practices and to identify models that can provide creative, caring environments in which all young children thrive. <b>Early Childhood Education and Play</b> - improving the quality of both early childhood teaching and learning, through the development of innovative curricula and research based pedagogical standards, as well as the design of imaginative play materials and learning environments. <b>Parenting Education</b> - programs that teach parents about developmental psychology, cultural child rearing differences, pedagogy, issues of health, prenatal care and diet, as well as programs which provide both cognitive and emotional support to parents.
1/31/2022 4/29/2022 8/31/2022	Alkermes	<a href="#">Research Grant</a>	Up to \$300,000	Medical Research, Substance Abuse, Schizophrenia, Translational	With <b>Investigator Sponsored Studies</b> , Alkermes seeks to support investigator research designed and conducted by independent physicians and scientists. The area of interest are: Substance Abuse Disorders and Schizophrenia.
1/31/2022	Center for Retirement Research at Boston College	<a href="#">Research Grant</a>	\$45,000	Social Science, Behavioral Science, Public Policy, Retirement, Disability	The <b>Center for Retirement Research</b> sponsors the annual <b>Steven H. Sandell Grant Program</b> for scholars in the field of retirement or disability research and policy. It provides opportunities scholars from any academic discipline to pursue cutting-edge projects on retirement or disability issues. Research focus areas include trends in disability and survey issues; informing long-term projections and models; state and local pensions for non-covered workers; actuarial adjustment of benefits; economic effects of totalization agreements; measuring sources of income; risks and resources in older age; induced entry; opioids; and claimant representatives. <b>The PI and the Co-PI(s) must be junior or non-tenured scholar(s) who are within 1-7 years of completing their Ph.D. or comparable professional certification.</b>

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
1/31/2022	National Pancreas Foundation	<a href="#">Research Grants</a>	\$50,000	Medical Research, Pancreatic Cancer, Early Career	Research grants support research with a direct relevance to the diagnosis and/or treatment of pancreatitis, pancreatic cancer or other pancreas diseases. Studies intended to advance knowledge in the areas of pancreatic carcinoma, and all forms of pancreatitis would be the closest to the areas of interest of the NPF. <b>Applicants be a physician or hold an advanced degree (MD, DO, PhD or international equivalent) working in any country within 10 years of obtaining his/her medical degree at the time of grant submission.</b>
1/31/2022 6/15/2022	11th Hour Racing	<a href="#">Research Grant</a>	Up to \$100,000	Environmental & Life Sciences, Oceans, Water Quality	<b>11th Hour Racing</b> seeks proposals that align with one or more of our focus areas: Solutions that Reduce Plastic Pollution, Ocean Literacy and Stewardship amongst coastal communities, Clean Technologies and Best Practices that reduce the environmental impact of the maritime industry and coastal communities, and Projects tackling water quality issues and climate change through Ecosystem Restoration. <b>Grant funding must be tied to a specific project, with measurable outcomes. They do not offer general funding, capital or infrastructure grants, or endowment funding.</b>
2/1/2022	FRAXA Research Foundation	<a href="#">Fellowship Grant</a>	Up to \$100,000 (over 2 years)	Medical Research, Fragile X Syndrome, Translational	<b>FRAXA</b> invites applications for its fellowship program, which will award grants in support of research that is likely to lead to new and improved treatments — and ultimately a cure — for Fragile X syndrome, with an emphasis on disease-modifying therapeutics based on understanding of Fragile X disease mechanisms. Priority will be given to research with a translational or preclinical focus on Fragile X, which has potential to lead to improved treatment.

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
2/1/2022 (Inquiry Form)	Motorola	<a href="#">Programmatic Grant</a>	Up to \$50,000	Education, Engineering, Technology, Women and Minorities	The <b>Motorola Solutions Foundation</b> welcomes applications for STEM Education, including programs specifically focused on technology and engineering, including those that engage students in innovative hands-on technology and engineering activities (e.g., design, coding, and robotics); provide vocational skills, scholarships, certifications, and workforce placement opportunities in engineering, information technology, and data science; and equip teachers with the skills and training necessary to enhance instruction in technology and engineering. <a href="#">The foundation supports underrepresented populations, including persons of color, females, and other underrepresented groups.</a>
2/1/2022	American Psychological Foundation	<a href="#">Research Grant</a>	\$10,500	Psychology, Cancer, Early Career	The <b>Alice F. Chang Cancer Wellness Grant</b> will support research and research-based projects to improve the lives of cancer patients and/or cancer survivors through psychology. <b>Applicants must be an early career psychologist (a doctoral level psychologist who is no more than 10 years postdoctoral).</b>
2/1/2022	Sarcoma Foundation of America	<a href="#">Research Grant</a>	Up to \$50,000	Medical Research, Sarcoma, Cancer, Translational	The Sarcoma Foundation of America is pleased to announce their <b>2022 Request for Proposals</b> for pre-clinical, translational, and clinical research on the etiology, molecular biology, pathogenesis, diagnosis, and treatment of human sarcomas. The goal of the SFA grant program is to encourage research that results in improved therapeutic options for sarcoma patients. The SFA encourages applications in all areas of sarcoma research, however the following areas of research are of particular interest: Immunotherapy; Omic characterization of sarcomas and definition of novel targets; Omic patterns of sensitivity and resistance to existing agents; Systemic therapy combinations; Gene Therapy.
2/1/2022	Massage Therapy Foundation	<a href="#">Research Grant</a>	Up to \$30,000	Medical Research, Massage Therapy, Translational	<b>Research Support Grants</b> support high quality, independent research which contributes significantly and directly to the knowledge of massage therapy and/or its application. Basic, applied, and translational research studies which investigate massage therapy as a wellness, medical, or health/mental health treatment and/or prevention intervention are supported.

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
2/1/2022	American Cancer Society	<a href="#">Award</a>	\$400,000 (over 5 years)	Medical Research, Cancer	<b>ACS Research Professor</b> awards are for individuals that have made seminal contributions in cancer research. The unrestricted awards provide unique research opportunities to foster creativity and innovation in cancer research. <b>Research Professor awards provide flexible funding for outstanding investigators who have been a full professor for 15 years or less who are expected to continue making seminal contributions to change the direction of cancer research.</b>
2/1/2022 (LOI) 8/1/2022 (LOI)	Tulane National Primate Research Center	<a href="#">Research Grant</a>	Up to \$60,000	Primate Research, Biomedical Science	The purpose of the <b>Pilot Research Program</b> is to provide funds to investigators who show promise of developing a strong career in nonhuman primate biomedical research or who wish to add a nonhuman primate component to their existing research programs. The program is also open to investigators with established research programs using nonhuman primates who wish to develop substantially new research directions.
2/1/2022	Sjogrens Syndrome Foundation	<a href="#">Research Grant</a>	<b>High Impact Research Award:</b> \$75,000  <b>Pilot Research Award:</b> \$25,000	Medical Research, Sjogrens Syndrome, Translational	The <b>SSF Research Grants Program</b> places a high priority on both clinical and basic scientific research into the cause, prevention, detection, treatment, and cure of Sjögren's, with opportunities open to both junior and senior-level investigators. The <b>SSF High Impact Research Award</b> will support more fully developed research proposals, which should already have the necessary preliminary data and methodology in place to move forward into the next phase of the project. The SSF High Impact Research Award will assist investigators in conducting feasibility studies, collecting preliminary data, or other research assistance necessary to advance their project and should help prepare them to pursue additional, larger forms of grant funding.

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
2/1/2022	Pharmaceutical Research and Manufacturers of America Foundation	<a href="#">Research Grant</a>	\$100,000	Medical Research, Translational	The goal of the PhRMA Foundation's <b>Translational Medicine and Therapeutics Program</b> is to promote the development and use of experimental and computational methods in an integrative approach towards clinical needs in diagnosis, treatment and prevention. The Foundation believes that to be successful, this requires working with clinicians to identify critical unmet clinical needs. This can involve enhanced understanding of human biological and disease processes but requires a strong translational component. <b>Applicants are eligible to apply for these research starter grants, providing their proposed research is neither directly nor indirectly already being subsidized to any significant degree by an extramural support mechanism.</b>
2/1/2022 6/1/2022 10/1/2022	Fibrolamellar Cancer Foundation	<a href="#">Research Grant</a>	Up to \$180,000	Medical Research, Cancer, Fibrolamellar Hepatocellular Carcinoma, Translational	The <b>Fibrolamellar Cancer Foundation</b> is accepting proposals to support innovative research, leading to curative treatments for this aggressive teen/young adult liver cancer. The research must focus on fibrolamellar hepatocellular carcinoma. Studies should be intended to advance knowledge in the areas of FL-CC. Of particular interest are those showing a clear path to clinical trials. <b>Collaboration and open sourcing is a requirement for FCF funding and will be so specified in any grant agreement.</b>
2/1/2022 (LOI) 7/15/2022 (LOI)	Friedreich's Ataxia Research Alliance	<a href="#">Research Grant</a>	Up to \$300,000 (over 2 years)	Medical Research, Neuroscience, Early Career	<b>General Research Grants</b> are open to qualified investigators proposing projects that fall within FARA Research Priorities: advancing understanding of neuroscience, advancing understanding of cardiac disease in FA, advance drug discovery, facilitate the drug development process and translational research, and advance clinical research. <b>FARA encourages applications from junior investigators and young clinicians.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/1/2022	Clif Bar Family Foundation	<a href="#">Programmatic Grant</a>	Up to \$7,000	Community Service, Environment, Outdoor Activity, Food Systems	Small grants are awarded for general organizational support as well as funding for specific projects. Priority is given to applicants that address the funding priorities from a holistic perspective: Protect Earth's beauty and bounty; Create a robust, healthy food system; Increase opportunities for outdoor activity; Reduce environmental health hazards; Build stronger communities. Programs/projects should demonstrate strong community ties and operate at the community level. <b>At this time, only US-based 501(c)3 organizations (or groups with a 501(c)3 fiscal sponsor) are eligible for our small grants programs.</b>
2/3/2022 (LOI)	Crohn's & Colitis Foundation of America	<a href="#">Research Grant</a>	Up to \$500,000	Medical Research, Inflammatory Bowel Disease, Translational	The Crohn's & Colitis Foundation seeks to accelerate the development of products that aim to improve the quality of life of patients with inflammatory bowel diseases. Toward that end, the Foundation has launched <b>IBD Ventures</b> , a new program and dedicated funding mechanism to support product-oriented research and development. <b>The Principal Investigator (PI) must be a faculty member actively conducting research in the area of sensor technologies for healthcare applications. If the PI does not have experience in IBD research, collaborators with experience in IBD should be identified as needed to support the project objectives.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/4/2022 (LOI)	The Alzheimer's Drug Discovery Foundation	<a href="#">Research Grant</a>	<b>PACT:</b> Up to \$3,000,000 <b>DD:</b> Up to \$600,000 <b>PP:</b> Up to \$3,000,000 <b>BD:</b> Up to \$600,000	Medical Research, Alzheimer's Disease	ADDf currently has four opportunities: The <b>Program to Accelerate Clinical Trials (PACT)</b> supports IND-enabling studies and early-phase clinical trials that test promising pharmacological interventions and devices for Alzheimer's disease (AD) and related dementias. Both disease-modifying and symptomatic agents will be considered. The <b>Drug Discovery (DD)</b> program seeks to support in vivo preclinical studies that advance lead molecules developed for Alzheimer's disease and related dementias to IND-enabling studies. The proposed studies should be structured to deliver a compound with strong potential for clinical and commercial application. The <b>Prevention Pipeline (PP)</b> program supports studies of cognitive symptoms due to health conditions, comparative effectiveness research, and epidemiological studies that probe whether the use or choice of drugs alters the risk for dementia or cognitive decline. The aim of the <b>Neuroimaging and CSF Biomarker Development</b> is to further develop and validate established biomarkers for which there is a clear clinical need in Alzheimer's disease and related dementias. This RFP prioritizes biomarkers with a defined context of use, a clear advantage over other relevant biomarkers, and a path to commercialization and/or clinical use. <b>Funding in all programs is open to researchers, clinicians, and postdoctoral fellows.</b>
2/7/2022	Pfizer Inc.	<a href="#">Research Grant</a>	Up to \$150,000	Medical Research, Inflammatory Bowel Disease	The intent of the <b>2022 IBD Competitive Grant Program RFP</b> is to support/fund proposals that focus on the below areas: Real world effectiveness and safety of tofacitinib in moderately to severely active ulcerative colitis; examples would include comparative effectiveness, long term effectiveness and safety. Use of tofacitinib in certain subpopulations: examples would include extra-intestinal manifestations, pouchitis. Approaches to improving IBD management; examples would include treating to target; impact and outcomes related to healthcare disparities. <b>The applicant (PI) must have a medical or postdoctoral degree (MD, PhD, or equivalent), an advanced nursing degree (BSN with a MS/PhD), or a degree in Pharmacy, Physiotherapy, or Social Work.</b>

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
2/11/2022	Environmental Research and Education Foundation	<a href="#">Research Grant</a>	\$15,000 - \$500,000	Engineering, Safety, Solid Waste Management	With the <b>Understanding the Injury and Fatality Risks Associated with Solid Waste Collection using Lagging Indicators RFP</b> , the Environmental Research and Education Foundation is seeking scientific research proposals to create an understanding of fatalities and injuries in the solid waste management industry. Proposals submitted in response to this RFP should consider the focus areas noted on the website.
2/14/2022	National Kidney Foundation	<a href="#">Research Grants</a>	Up to \$35,000	Medical Research, Kidney Diseases, Early Career	<b>Young Investigator Research Grants</b> support clinical research studies addressing important issues for patients with kidney disease by promising young scientists. <b>Young investigators are junior faculty who have been in their position for under four years at the time the grant begins. Applicants must have an MD degree and subsequent nephrology training.</b>
2/15/2022	Esther A. & Joseph Klingenstein Fund	<a href="#">Award</a>	\$225,000	Medical Research, Neuroscience, Translational, Early Career	Aimed at advancing cutting-edge investigations, the <b>Klingenstein-Simons Fellowship Awards in the Neurosciences</b> are presented to highly promising, early career scientists. They support young investigators engaged in basic or clinical research that may lead to a better understanding of neurological and psychiatric disorders. Several areas within the neurosciences are of particular interest: cellular and molecular neuroscience, neural systems, and Translational research. <b>The candidate must be an independent investigator at a university, medical center or research institute and be within 4 years of completing postdoctoral training and the start of his/her tenure track or equivalent appointment.</b>
2/16/2022	New York Stem Cell Foundation	<a href="#">Award</a>	\$1,500,000 (over 5 years)	Medical Research, Neuroscience, Translational, Early Career	<b>New York Stem Cell Foundation</b> is soliciting applications from early career investigators for Innovator awards in neuroscience. The goal of this initiative is to foster truly bold, innovative scientists with the potential to transform the field of neuroscience. Applicants are encouraged in all areas of neuroscience, and NYSCF is committed to supporting the field as broadly as possible through these awards. Applicants need not be working in areas related to stem cells or related areas. <b>To be eligible, candidates must be within 6 years of starting a faculty (professorship) or comparable position on June 1, 2022. (Note: an additional year of eligibility was added as a result of the COVID-19 crisis).</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/18/2022	Muscular Dystrophy Association	<a href="#">Research Grant</a>	<b>Idea Award:</b> \$50,000  <b>Research Grant:</b> Up to \$300,000 (over 3 years)	Medical Research, Muscular Dystrophy, Translational	The <b>MDA Idea Award Program</b> seeks bold, innovative research ideas that can have an impact in the field of neuromuscular disease. The idea should be supported by a strong scientific premise and include a feasible experimental plan. <b>MDA Research Grants</b> are awarded to independent, established investigators to accelerate progress toward understanding and treating neuromuscular disease.
2/21/2022	Orthopaedic Research and Education Foundation	<a href="#">Grant</a>	\$75,000	Medical Research, Osteoarthritis, Translational, Early Career	The <b>OREF Impact of Regulatory Policies on the Patient-Physician Relationship Research Grant in Honor of Sigvard Hansen, MD</b> funds proposals that explore the impact of regulatory practices on the patient-physician relationship. The proposal should examine how and to what extent the burden of additional required documentation impacts the amount and quality of time a physician has available to focus on direct patient care. <b>PhDs may serve as the principal investigator (PI) if they have a primary or secondary faculty appointment in an orthopaedic department. The orthopaedic surgeon must be licensed to practice in the United States. View the RFA on proposalCentral for complete eligibility requirements. D. The PI must be a new investigator. A new investigator is classified as an individual who has not received an R01 National Institutes of Health (NIH) grant or its equivalent (e.g., VA, DOD, NSF) in the role of PI.</b>
2/23/2022 (LOI)	Hearing Health Foundation	<a href="#">Research Grant</a>	Up to \$100,000 (over 2 years)	Medical Research, Hearing Loss, Translational, Early Career	Through the <b>Emerging Research Grants (ERG)</b> program, Hearing Health Foundation (HHF) provides seed money to hearing and balance researchers who focus on researching underfunded areas of otology. Grantees advance scientific knowledge in the following under-researched areas: Hearing Loss in Children, Central Auditory Processing Disorder, Hyperacusis, Tinnitus, Ménière's disease, Usher syndrome, making cancer drugs less ototoxic, and the links between hearing loss and diabetes, heart and kidney disease. <b>General Hearing Health applicants are limited to early career researchers who are within 7 years of completing their terminal degree. They cannot be a prior or current PI on a major research award (e.g., R00, R03, R21, R01, VA Merit, DoD, or equivalent).</b>

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/24/2022	Pfizer Inc.	<a href="#">Research Grant</a>	Up to \$175,000	Medical Research, Dermatology, Translational, Early Career	The intent of the <b>Inflammatory and Immune-Mediated Dermatologic Disorders Research RFP</b> is to support preclinical, clinical and outcomes research through a competitive grant program with the intent to increase medical knowledge in the diagnosis and management of inflammatory and immune-mediated dermatologic disorders. In particular, Pfizer has interest in alopecia areata (AA) and atopic dermatitis (AD), although other inflammatory skin conditions may be considered. <b>The applicant (PI) must have a medical or postdoctoral degree (MD, PhD, or equivalent), an advanced nursing degree (BSN with a MS/PhD), or a degree in Pharmacy, Physiotherapy, or Social Work. Early Career is defined as an investigator that is less than 10 years past their terminal training. An established investigator grant is also available. Established Investigator is defined as an investigator that is more than 10 years past their terminal training.</b>
2/25/2022	Agilent	<a href="#">Award</a>	\$120,000 (over 2 years)	Engineering, Artificial Intelligence, Early Career	The purpose of the <b>Agilent Early Career Professor Award</b> is to promote and encourage excellent research enabling measurements of importance to Agilent Technologies and the world, and to establish strong collaborative relationships between Agilent researchers and leading professors early in their career. The focus of the 2022 award is on research that contributes to the development of Artificial Intelligence and Machine Vision technologies for intuitive Collaborative Robots (Cobots) to address demands for a flexible next-generation workforce in manufacturing applications. <b>Applicants must have completed their Ph.D. no earlier than January 2012.</b>
2/28/2022 6/30/2022 10/31/2022	The Mohamed bin Zayed Species Conservation Fund	<a href="#">Research Grant</a>	Up to \$25,000	Conservation, Environment	The <b>Mohamed bin Zayed Species Conservation Fund</b> was established to provide targeted grants to individual species conservation initiatives, recognize leaders in the field and elevate the importance of species in the broader conservation debate. Its focus is global and eligibility for grants will extend to all plant, animal and fungi species conservation efforts, without discrimination on the basis of region or selected species. The Fund is primarily interested in in situ species conservation work, but will consider applications for an ex situ project where it is demonstrated to be critical to the survival of the species concerned. <b>Anyone directly involved in species conservation can apply to the Fund for a grant.</b>

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/28/2022	International OCD Foundation	<a href="#">Research Grant</a>	<b>Michael Jenike Young Investigator Award:</b> Up to \$50,000  <b>Breakthrough Award:</b> \$500,000  <b>Innovator Award:</b> Up to \$300,000	Medical Research, OCD, Translational, Early Career	The International OCD Foundation has three types of grants available. <b>Michael Jenike Young Investigator Awards</b> will be awarded to early career researchers pursuing projects investigating OCD, BDD, hoarding disorder, or other disorders related to OCD. <b>To be eligible, applicants must have completed residency or their PhD (or equivalent) on or after September 1, 2017. Breakthrough Awards</b> are intended for senior researchers investigating OCD. The goal of these awards is to support research with the potential to revolutionize scientific understanding of OCD, accelerate progress toward new and more effective treatments, and discover ways to prevent OCD from taking hold in the first place. <b>To be eligible, applicants must have completed residency or their PhD before September 1, 2017, and must have at least five years of research experience. Innovator Awards</b> support research studying the mechanisms and causes of co-occurring OCD and Bipolar disorder. Previous research has found that OCD is common among those who also have Bipolar Disorder. The intent with this grant is to improve scientific knowledge in this under-researched area, with the ultimate goal of improving treatment outcomes for people with this dual diagnosis.
2/28/2022 (LOI)	Simons Foundation (SFARI)	<a href="#">Research Grant</a>	\$495,000 (over 3 years)	Medical Research, Autism	SFARI is invested in supporting the next generation of top autism researchers. The <b>Bridge to Independence Award</b> program promotes talented early-career scientists by facilitating their transition to research independence and providing grant funding at the start of their professorships. This RFP is aimed at senior postdoctoral fellows who intend to seek tenure-track faculty positions during the upcoming academic year. <b>Applicants must have fewer than six (6) years of postdoctoral or otherwise mentored training. Applicants must be currently in non-independent, mentored, training positions, as recognized by their institution. Applicants must hold a Ph.D., M.D. or equivalent degree.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
2/28/2022	University of Louisville	<a href="#">Award</a>	\$100,000	Psychology, Social Science	The University of Louisville offers the <b>Grawemeyer Award in Psychology</b> , which is given for original and creative ideas: ideas that possess clarity, power and that substantially impact the field of psychology. The purpose of this annual award is to acknowledge and disseminate outstanding ideas in all areas of psychological science. The award is designed to recognize a specific idea, rather than a lifetime of accomplishment. <b>Self-nominations are not accepted.</b>
2/28/2022 (Notice of Intent to Nominate)	The Franklin Institute	<a href="#">Prize</a>	\$250,000	Computer Science, Economics, Psychology, Neuroscience	The <b>2023 Bower Award and Prize for Achievement in Science</b> is for individuals who have made significant contributions to the scientific understanding of decision-making. The interdisciplinary field of decision-making integrates theory and methods from economics, psychology, neuroscience, computer science, and related areas to understand the mechanisms through which individuals and groups choose among competing possibilities and how these mechanisms guide behavior. <b>Nominations from any individual or organization will be accepted, including self-nominations.</b>
2/28/2022 8/31/2022	Engineering Information Foundation	<a href="#">Programmatic Grant</a>	Up to \$25,000	Engineering	The <b>Engineering Information Foundation</b> supports developmental projects, instructional projects, and training programs in engineering education and research that fit our fields of interest. These currently include the availability and use of published information, women in engineering, and information access in developing countries.
3/1/2022 (LOI) 9/1/2022 (LOI)	Samuel H. Kress Foundation	<a href="#">Programmatic Grant</a>	Up to \$50,000	Visual Arts, Art History, Art Education	The <b>Digital Art History Program</b> is intended to foster new forms of research and collaboration and new approaches to teaching and learning. Support may be offered for the digitization of important visual resources (especially art history photographic archives) in the area of pre-modern European art history; of primary textual sources (especially the literary and documentary sources of European art history); for promising initiatives in online publishing; and for innovative experiments in the field of digital art history. <b>Please note that this grant program does not typically support the digitization of museum object collections.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/1/2022 9/1/2022	Andy Warhol Foundation for the Visual Arts	<a href="#">Project Grant</a>	Up to \$120,000	Visual Arts	The Foundation's grantmaking activity is focused on serving the needs of artists by funding the institutions that support them. Grants are made for scholarly exhibitions at museums; curatorial research; visual arts programming at artist-centered organizations; artist residencies and commissions; arts writing; and efforts to promote the health, welfare and first amendment rights of artists. <b>The Foundation will only consider proposals for museum exhibitions opening no sooner than six months from the grant notification date (July 1 or January 1).</b>
3/1/2022	Global Probiotics Council	<a href="#">Research Grant</a>	\$50,000	Biology, Medical Research, Probiotics, Early Career	The purpose of the <b>Young Investigator Grant for Probiotic Research</b> is to contribute to the advancement of probiotics and gastrointestinal microbiota research in the United States and to impact academic and career development of young investigators, attracting them into the field of probiotics and microbiota. <b>Young investigators who are senior fellows with a committed faculty appointment or early faculty members within a maximum of 5 consecutive years of his/her first faculty appointment (appointments must be in the United States) are eligible.</b>
3/1/2022 9/1/2022	J.M. Kaplan Fund	<a href="#">Publication Grant</a>	\$1,500 - \$15,000	Arts and Humanities, History, Book Publishing	<b>Furthermore grants in publishing</b> supports publication of nonfiction books that concern the arts, history, and the natural and built environment. They look for work that appeals to an informed general audience, gives evidence of high standards in editing, design, and production, and promises a reasonable shelf life. Book projects to which a university press, nonprofit or trade publisher is already committed and for which there is a feasible distribution plan are usually preferred. <b>You must apply at least three months before the anticipated press date.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/1/2022 (LOI) 9/1/2022 (LOI) 12/1/2022 (LOI)	Samuel H. Kress Foundation	<a href="#">Research Grant</a>	Up to \$100,000	Visual Arts, Art History, Art Education	The <b>History of Art</b> program supports scholarly projects that will enhance the appreciation and understanding of European art and architecture. Grants are awarded to projects that create and disseminate specialized knowledge, including archival projects, development and dissemination of scholarly databases, documentation projects, museum exhibitions and publications, photographic campaigns, scholarly catalogues and publications, and technical and scientific studies. Grants are also awarded for activities that permit art historians to share their expertise through international exchanges, professional meetings, conferences, symposia, consultations, the presentation of research, and other professional events.
3/1/2022 (LOI)	Massage Therapy Foundation	<a href="#">Research Grant</a>	\$30,000 - \$300,000 (over up to 3 years)	Medical Research, Massage Therapy, Translational	<b>MTF Research Awards</b> support high quality, independent research that contributes to the basic science of massage therapy application, including applied research investigating massage therapy as a health/mental health treatment and/or prevention modality.
3/1/2022	American Psychological Foundation	<a href="#">Research Grant</a>	<b>F.J. McGuigan Grant:</b> Up to \$11,500  <b>APF Walter Katkovsky Grant:</b> Up to \$20,000  <b>Esther Katz Rosen Grant:</b> Up to \$50,000	Psychology, Child Psychology, Early Career	The <b>F.J. McGuigan Early Career Investigator Research Grant</b> is given to recognize and support the efforts of an early career psychological scientist who is pursuing research that aims to address any aspect of mental function (e.g., cognition, affect, motivation) and seeks to understand the mind from both a behavioral and neural perspective. <b>APF Walter Katkovsky Grants</b> support research on the general topic of psychotherapy. Research proposals should be directed to questions and hypotheses designed to improve our understanding based on theory or methods of how psychotherapy promotes behavioral, emotional, or cognitive changes. <b>Rosen Fund grants</b> enable and enhance development of identified gifted and talented children and adolescents and encourage promising psychologists to continue innovative research and programs in this area. Support will be provided for activities on the advancement and application of knowledge related to identified gifted and talented children and adolescents, such as: Research, Pilot projects, Research-based programs. <b>The applicant for both F.J. McGuigan and Esther Katz Rosen grants must be no more than 10 years postdoctoral. The applicant for a APF Walter Katkovsky Grant must not be more than 12 years postdoctoral.</b>

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/1/2022 (Pre-Proposal) 7/1/2022 (Pre-Proposal) 11/1/2022	Partnership for Clean Competition	<a href="#">Research Grant</a>	Up to \$225,000	Medical Research, Sports Science, Translational	Proposals are sought for original work that focuses on improving existing analytical methods for detecting particular drugs, developing new analytical methods to test for substances not currently detectable, and discovering cost-effective approaches for testing widely abused substances across all levels of sport, the following areas of investigation reflect the PCC's current research priorities: Developing methods of cost-effective testing to detect and deter the use of banned and illegal substances; Developing testing protocols to detect designer substances; Improving existing analytical methods to detect particular drugs; Developing analytical methods to detect PEDs not currently detectable; Longitudinal urinary excretion patterns; Critical reviews to support interpretation of laboratory data; Alt. specimens, (ex. oral fluid, dried blood/plasma) for testing.
3/4/2022	Glaucoma Foundation	<a href="#">Research Grant</a>	Up to \$60,000	Medical Research, Glaucoma, Biomedical Engineering, Translational	The Glaucoma Foundation offers grants to researchers striving to improve the lives of glaucoma patients through novel innovations and scientific advances. The areas of current focus for <b>TGF's Grant Research</b> program are exfoliation syndrome, exfoliation glaucoma and intraocular pressure-independent mechanisms of optic nerve degeneration in glaucoma. Examples of research that may be considered range from basic science to clinical interventions, such as genetics and genomic medicine, disease modeling, assessment of ocular perfusion, artificial intelligence, and clinical research.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/8/2022	Jerome Lejeune Foundation	<a href="#">Research Grant</a>	<p><b>Advanced Grants:</b> €80,000 (\$90,300) (over 2 years)</p> <p><b>Pilot/Exploratory Grants:</b> €40,000 (\$45,100) (over 2 years)</p>	Medical Research, Down Syndrome, Translational	If you are a researcher investigating on Down syndrome and other intellectual disability from genetic origin appearing in early childhood, the Scientific Advisory Board of the Jerome Lejeune Foundation invites you to submit your research project aiming at deciphering the pathophysiology of the cognitive deficits of patients, especially those with Down syndrome (trisomy 21) and linked pathologies as well as knowledge of the chromosome 21. Two types of research projects may be submitted and will be separately evaluated by the scientific board experts or external reviewers if needed for each call: <b>Advanced grants</b> will be dedicated to larger breakthrough projects with preliminary data. <b>Pilot or exploratory grants</b> will be dedicated to initial early stage experiments built on preliminary data, or to ancillary projects to primary larger projects. Through this call the Jerome Lejeune Foundation will also support the organization of conferences, workshops and courses.
3/11/2022	American Chemical Society	<a href="#">Research Grant</a>	Up to \$110,000 (over 2 years)	Chemistry, Engineering, Petroleum, Material Science, Early Career	The American Chemical Society is offering 2 grants through their <b>Petroleum Research Fund</b> for fundamental research in “the petroleum field,” which is defined in our founding document as “petroleum, natural gas, coal, shale, tar sands and like materials.” <b>The New Directions Grants Program</b> aims to stimulate a "new direction" of research for established faculty, and to support the careers of their student scientists and engineers. A "new research direction" is something different from previous research performed by the lead principal investigator (lead PI). But, it may involve a field of science or engineering in which others are already working. <b>Doctoral New Investigator (DNI)</b> grants provide start-up funding for <b>scientists and engineers in the United States who are within the first three years of their first academic appointment at the level of Assistant Professor or the equivalent</b> . Applicants may have limited or no preliminary results for a research project they wish to pursue, with the intention of using the preliminary results obtained to seek continuation funding from other agencies.

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
3/21/2022	EveryCat Health Foundation (formerly Winn Feline Foundation)	<a href="#">Research Grant</a>	\$10,000 - \$50,000	Feline Health, Kidneys	<b>EveryCat Health Foundation</b> is calling for proposals that address the effect that dietary phosphorus and calcium to phosphorus ratio have on renal health in cats as well as biomarkers to detect early renal disease. The overall goal is to provide evidence that will lead to scientific consensus on safe levels and types of dietary phosphorus for feline diets.
3/24/2022 (application initiation) 3/31/2022 (LOI)	Human Frontier Science Program	<a href="#">Research Grant</a>	Up to \$450,000 (for a team of 4)	Biology, Engineering, Chemistry, Computer Science, Mathematics, Interdisciplinary, Early Career	<b>HFSP Research Grants</b> support innovative basic research into fundamental biological problems with emphasis placed on novel and interdisciplinary approaches that involve scientific exchanges across national and disciplinary boundaries. Research grants are provided for teams of scientists from different countries who wish to combine their expertise in innovative approaches to questions that could not be answered by individual laboratories. Two types of Research Grant are available: Research Grant - <b>Early Career</b> and <b>Research Grants - Program</b> . <b>Applications from individual scientists or early career researchers carrying out their postdoctoral or PhD level projects are not eligible. The research teams must be international. All members of a Early Career grant team must be within 5 years of obtaining an independent position but must have obtained their first doctoral degree (PhD, MD or equivalent) not longer than 10 years before the deadline for submission of the letter of intent. A Young Investigator should be a project leader directing a research group. They must have full responsibility for the day to day running of their laboratories and will have full control of the HFSP funds. All members of a Program Grant team must be in a position to initiate and direct their own independent lines of research. They must have full scientific and financial responsibility for their own laboratories.</b>
3/25/2022	Health Effects Institute	<a href="#">Research Grant</a>	Up to \$500,000 (over 3 years)	Medical Research, Air Pollution, Early Career	HEI has established the <b>Walter A. Rosenblith New Investigator Award</b> to provide funding for outstanding investigators who are beginning independent research. HEI hopes to encourage highly qualified individuals to undertake research on the health effects of air pollution. The candidates may have training and experience in any of the many branches of science relevant to air pollution. <b>At the time of application, the candidate should have two to seven years of research experience after obtaining the highest degree and must be in an assistant professor or equivalent position at an academic or research institution.</b>

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
4/1/2022	American Psychological Foundation	<a href="#">Grant</a>	Up to \$20,000	Psychology, Education, Community Outreach	The <b>APF Visionary Grants</b> seek to seed innovation through supporting research, education and intervention projects and programs that use psychology to solve social problems in the following priority areas: Applying psychology to at-risk, vulnerable populations (e.g., serious mental illness, returning military, those who are incarcerated or economically disadvantaged). Preventing violence. Understanding the connection between behavior and health (e.g. wellness, diabetes, obesity). Understanding and eliminating stigma and prejudice (e.g., race, gender, sexual orientation, religion, age, disability and socioeconomic status).
4/1/2022	IBM Center for The Business of Government	<a href="#">Research Grant</a>	\$20,000	Social Science, Government Management, Public Policy	The aim of the <b>IBM Center for The Business of Government</b> is to tap into the best minds in academe and the nonprofit sector who can use rigorous public management research and analytic techniques to help public sector executives and managers improve the effectiveness of government. They are looking for very practical findings and actionable recommendations - not just theory or concepts - in order to assist executives and managers to more effectively respond to mission and management challenges.
4/1/2022 8/1/2022	Brady Education Foundation	<a href="#">Research Grant</a>	Up to \$100,000 per year	Education	The <b>Brady Education Foundation</b> pursues its mission by promoting collaboration between researchers and educators via the funding of program development and program evaluations in education. The Foundation is currently accepting proposals focused on evaluating programs that have the potential of helping to close the opportunity and resulting achievement gaps associated with race and family income.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
4/1/2022	Fahs-Beck Fund for Research and Experimentation	<a href="#">Research Grant</a>	Up to \$25,000	Social Science, Public Health, Psychology	Grants are available to help support the research of faculty members or post-doctoral researchers affiliated with non-profit human service organizations in the United States and Canada. Areas of interest to the Fund are: studies to develop, refine, evaluate, or disseminate innovative interventions designed to prevent or ameliorate major social, psychological, behavioral or public health problems affecting children, adults, couples, families, or communities, or studies that have the potential for adding significantly to knowledge about such problems. <b>The research for which funding is requested must focus on the United States or Canada or on a comparison between the United States or Canada and one or more other countries.</b>
4/1/2022	Fred C. Gloeckner Foundation	<a href="#">Research Grant</a>	Up to \$13,000	Plant Science, floriculture	The <b>Gloeckner Foundation</b> awards grants for research and educational projects in floriculture and related fields at universities, colleges and Federal research institutions in the United States. The proposed research and educational projects must be of substantial importance, and the results made available to the interested public.
4/15/2022 8/19/2022	Searle Freedom Trust	<a href="#">Research Grant</a>	\$25,000 - \$300,000	Public Policy	The <b>Searle Freedom Trust</b> is primarily interested in supporting domestic public policy research. Recognizing that good policymaking relies on the availability of high-quality research, the foundation invests primarily in scholarship that results in the publication of books, journal articles, and policy papers. Funding is typically provided in the form of research grants, fellowships, and other types of targeted project support.
4/15/2022	Angelman Syndrome Foundation	<a href="#">Research Grant</a>	Up to \$200,000 (over 2 years)	Medical Research, Angelman Syndrome, Translational	The <b>Angelman Syndrome Foundation</b> is calling for proposals for pilot projects to test new ideas about pathogenesis and therapeutics of Angelman syndrome, translational research and clinical research studies. Of particular interest to the ASF are studies related to communication, behavioral issues and identification of issues and treatments that impact the daily life of people with Angelman syndrome and their families.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
4/30/2022 8/31/2022	The Elsa U. Pardee Foundation	<a href="#">Research Grant</a>	Up to \$200,000	Medical Research, Cancer	The foundation funds research directed toward new treatments or cures for cancer. They particularly encourage grant applications for a one-year period which allows establishment of capabilities of new cancer researchers, or new cancer approaches by established cancer researchers. Project relevance to cancer detection, treatment or cure should be clearly identified.
5/1/2022	American Psychological Foundation	<a href="#">Prize</a>	\$20,000	Psychology, Mental Illness	The <b>APF Alexander Gralnick Research Investigator Prize</b> recognizes “exceptional individuals working in the area of serious mental illness,” including but not limited to schizophrenia, bipolar disorder, and paranoia (delusional disorder). <b>Nominees must: Have a doctoral degree and a record of significant research productivity in the area of serious mental illness; Have demonstrated research productivity in serious mental illness for a minimum of eight years; Have a record of significant involvement in training and development of more junior investigators.</b>
5/1/2022	Lalor Foundation	<a href="#">Programmatic Grant</a>	Up to \$35,000	Public Health, Sex Education	The <b>Anna Lalor Burdick Program</b> supports programs that offer sexual and reproductive health education to young women. It is interested in programs serving young women who are disadvantaged by poverty, discrimination, geographic isolation, lack of comprehensive sex education, hostile public policy, or other factors leading to inadequate sexual and reproductive health. The ALB Program is particularly interested in supporting new programs or initiatives, or innovations in successful programs. <b>While projects may take place outside the U.S., only organizations based in the United States are eligible.</b>

**RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022**

<b>Deadline</b>	<b>Sponsor</b>	<b>Type</b>	<b>Award Amount</b>	<b>Subject Area(s)</b>	<b>Description</b>
5/1/2022 12/1/2022	Environmental Research and Education Foundation	<a href="#">Research Grant</a>	Up to \$500,000	Engineering, Biology, Chemistry, Waste Management	The EREF Board of Directors has set an initiative to ensure research funded reflects EREF's long-term strategic plan to address all areas of integrated solid waste management, with a strong focus towards research that increased sustainable solid waste management practices. Pre-proposal topics must relate to sustainable solid waste management practices and pertain to the following topic areas: Waste minimization; Recycling; Waste conversion to energy, biofuels, chemicals or other useful products. This includes, but is not limited to, the following technologies: Waste-to-energy, Anaerobic digestion, Composting, Other thermal or biological conversion technologies; Strategies to promote diversion to higher and better uses (e.g. organics diversion, market analysis, optimized material management, logistics, etc.); Landfilling.
5/5/2022 (LOI)	Crohn's & Colitis Foundation	<a href="#">Research Grant</a>	Up to \$115,830 (over 1 to 3 years)	Medical Research, Inflammatory Bowel Disease, Crohn's Disease, Ulcerative Colitis	The <b>Senior Research Awards</b> program provides grants to established researchers in support of research relevant to inflammatory bowel disease (IBD) or Crohn's disease and/or ulcerative colitis. Funding should be used to generate sufficient preliminary data in order to become competitive for funding generated by other sources such as the National Institutes of Health (NIH). <b>Applicant must hold an MD and/or PhD (or equivalent degree) and must be employed by an institution (public non-profit, private non-profit, or government) that is engaged in health care and/or health-related research. He/she must have attained independence from his/her mentor.</b>
5/15/2022 (Concept Paper)	Gerber Foundation	<a href="#">Research Grant</a>	Up to \$350,000 (over 3 years)	Health, Nutrition, Human Development, Infants, Youth	The foundation awards grants for research projects focused on issues faced by care providers that, when implemented, will improve health, nutrition, and/or developmental outcomes for infants and young children. Projects may address etiologic mechanisms of disease; new, improved, or less invasive diagnostic procedures; reduction or elimination of side effects; alleviation of symptoms; new, improved, or less invasive therapies or treatments; dosage or dosing requirements or mechanisms for drugs, nutrient supplementation, or other therapeutic measures (under or overdosing); and preventative measures. Priority is given to projects offering a substantial promise of meaningful advances in prevention and treatment of diseases, as well as those with broad applicability to the general population on a regional or national level.

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
5/15/2022	Friedreich's Ataxia Research Alliance (FARA)	<a href="#">Research Grant</a>	<p><b>Bronya J. Keats International Research Collaboration Award:</b> Up to \$400,000 (over 2 years)</p> <p><b>Kyle Bryant Translational Research Award:</b> Up to \$500,000 (Over 2 years)</p>	Medical Research, Friedreich's Ataxia, Translational	<p><b>The Bronya J. Keats International Research Collaboration Award</b> supports international collaboration among investigators in at least two different countries. <b>The rationale for the collaboration needs to be convincing and must clearly demonstrate that the research goals could not be achieved by just one of the participating groups and that the synergy among the groups is essential for the success of the project. The Kyle Bryant Translational Research Award</b> honors its namesake for his diligent efforts to aid in the acceleration of preclinical studies to early pilot trials in FA patients. This award is given to proposals focused on pre-clinical and clinical investigations that will advance treatments for FA. <b>The specific aims must target one or more of the following: Identification of biomarkers for FA that will elucidate disease variability, severity, and prognosis; facilitate drug screening, and/or optimize selection of patients and clinical endpoints for clinical trials; Development of tools and technologies that can (a) be directly used for therapy development, (b) overcome existing obstacles to treatment, and (c) be directly applied to, or adapted for, delivery of potential therapeutics; Pre-clinical development and testing of potential therapeutics, biologics, and devices in cells and animals; Clinical studies of patient outcome measures.</b></p>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
6/22/2022	National Forest Foundation	<a href="#">Programmatic Grant</a>	\$25,000 (Average award)	Environmental Management, Forestry, Education	The <b>National Forest Foundation (NFF) Matching Awards Program (MAP)</b> provides funding for results-oriented on-the-ground projects that enhance forest health and outdoor experiences on National Forests and Grasslands. They have two program areas: <b>Outdoor Experiences</b> - projects that improve the quality, condition, and care of Outdoor Experiences on National Forests by Improving or maintaining recreation resource connectivity including, and similar to: trail maintenance, bridge and crossing construction or repair, and installation of trail drainage structures; and/or engaging youth, volunteers, or diverse, underserved or under-engaged populations in hands-on stewardship activities; and/or employing youth and/or veterans crews to implement on-the-ground conservation, stewardship and/or restoration work. <b>Forest Health</b> - results-oriented, on-the-ground, citizen-involved projects that maintain and/or restore ecosystem resiliency on National Forests by promoting ecosystem structure, function and diversity; and/or promoting forest health through the removal or control of non-native invasive species, and/or reintroduction of native plants and trees. Applications that cohesively integrate the two program areas are encouraged.
7/15/2022	Leakey Foundation	<a href="#">Research Grants</a>	Up to \$25,000	Biology, Human Origins, Social Sciences	The <b>Leakey Foundation</b> exclusively funds research related to human origins. Priority of funding is commonly given to exploratory phases of promising new research projects that meet the stated purpose of the Foundation.
Rolling	Social Science Research Council	<a href="#">Research Grant</a>	\$10 Million in total funding	Social Science, Misinformation, Public Policy, COVID-19	<b>The Mercury Project</b> will provide research grants over a three-year period to researchers and organizations for the purpose of: a) estimating the causal impacts of mis- and disinformation on online and offline outcomes in the context of the Covid-19 pandemic, including health, economic, and/or social outcomes, differential impacts across socio-demographic groups, and quantifying the global costs of those impacts; b) estimating the causal impacts of online or offline interventions in the United States, Africa, Asia, and Latin America to increase uptake of Covid-19 vaccines and other recommended public health measures by countering mis- and disinformation, including interventions that target the producers or the consumers of mis- and disinformation, or that increase confidence in reliable information.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling (Reviewed Quarterly Through 10/30/2023)	Burroughs Wellcome Fund	<a href="#">Research Grant</a>	Up to \$50,000	Climate Change, Human Health, Economics, Interdisciplinary	With <b>Climate Change and Human Health Seed Grants</b> , the Burroughs Wellcome Fund aims to stimulate the growth of new connections between scholars working in largely disconnected fields who might together change the course of climate change's impact on human health. They are particularly but not exclusively interested in activities that build connections between basic/early biomedical scientific approaches and ecological, environmental, geological, geographic, and planetary-scale thinking, as well as with population-focused fields including epidemiology and public health, demography, economics, and urban planning. <b>This call focuses on developing partnerships. Proposals from single institutions must develop partnerships that do not already occur naturally. This program does not support biomedical research projects proposed by individual investigators.</b>
Rolling	Robert Wood Johnson Foundation	<a href="#">Research Grant</a>	Unlimited	Health, Racial Equity, Public Policy	<b>Evidence for Action (E4A)</b> , a national program of the Robert Wood Johnson Foundation, funds research that expands the evidence needed to build a Culture of Health, with an explicit emphasis on advancing racial equity. This funding is focused on studies about upstream causes of health inequities, such as the systems, structures, laws, policies, norms, and practices that determine the distribution of resources and opportunities, which in turn influence individuals' options and behaviors. Research should center on the needs and experiences of communities exhibiting the greatest health burdens and be motivated by real-world priorities. It should be able to inform a specific course of action and/or establish beneficial practices, not stop at characterizing or documenting the extent of a problem.
Rolling	AMD	<a href="#">HPC Research Assistance</a>	N/A	Medical Research, COVID- 19	<b>AMD</b> teams with Penguin Computing to contribute high-performance computing (HPC) systems for pandemic research. AMD EPYC™ CPUs and AMD Radeon™ Instinct GPUs to power focused research programs at leading institutions. The recipient universities are expected to utilize the new compute capacity across a range of pandemic-related workloads including genomics, vaccine development, transmission science and modeling.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling	Pfizer Inc.	<a href="#">Research Grant</a>	Unlimited	Medical Research, COVID-19, Vaccines, Translational	Pfizer is currently accepting <b>COVID-19 general research grant</b> requests that address the following areas: Studies evaluating COVID-19 burden of disease and sero-epidemiological surveys among specific populations; Epidemiology studies evaluating direct & indirect impact, including modeling approaches, of Pfizer's vaccine particularly in specific patient populations; Studies measuring the impact of efforts to overcome vaccine hesitancy and enhance vaccine uptake. <b>Currently, they are not accepting applications for clinical research that studies the safety, immunogenicity, and/or efficacy of Pfizer's COVID-19 vaccine. To ensure vaccine availability for the general public, Pfizer is unable to provide COVID-19 vaccine as part of a grant.</b>
Rolling	Internet Society Foundation	<a href="#">Research Grant</a>	Up to \$200,000 (over 2 years)	Computer Science, Social Science, Economics, Ecology	The <b>Internet Society Foundation</b> has announced a new grants program in support of researchers worldwide who are studying the future and sustainability of the Internet. Through the program, grants are available for research focused in one of two categories: Greening the Internet and The Internet Economy.
Rolling	North Pacific Research Board	<a href="#">Research Grant</a>	Up to \$800,000	Life Sciences, Biological Research, Social Science	The <b>North Pacific Research Board</b> provides grants to organizations to conduct research activities on, or relating to, fisheries and marine ecosystems in the North Pacific Ocean, Bering Sea, Aleutian Islands, Gulf of Alaska, and Arctic. NPRB prioritizes research that improves understanding of marine ecosystems and enhances effective fishery management and sustainable use of marine resources.
Rolling	Open Technology Fund	<a href="#">Research Grant</a>	\$50,000 - \$200,000	Computer Science, Digital Security, Internet Freedom	The <b>Internet Freedom Fund</b> supports technologists and activists working bring to life ideas that advance inclusive and safe access to global communications networks, counteract censorship and surveillance, and mitigate digital security threats to Internet freedom specifically for at-risk users, journalists, human-rights defenders, civil society activists, and others living in repressive environments. Projects must fall within one of the following areas: Technology Development, Applied Research, Digital Security, or Community Convenings.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling	Transformational Partnerships Fund	<a href="#">Programmatic Grant</a>	Up to \$100,000	Diversity Equity and Inclusion, Student Success	The Transformational Partnerships Fund supports colleges and universities interested in exploring partnerships and collaborations that could fundamentally transform the way they operate — centering students in solutions that deliver stability and success. <b>Catalytic grants</b> can be used to engage third-party technical assistance providers knowledgeable in law, finance, governance, fundraising, human resources, and other related fields. These grants may support the exploration of partnerships in many forms — ranging from shared administrative services or consolidated academic offerings on one end of the spectrum, to full mergers on the other. <b>Partnerships supported by TPF typically involve two or more degree-granting institutions of higher education. These can include private nonprofit colleges, public universities or systems, community colleges, and (in exceptional situations) for-profit institutions. One or more of the participating institutions must serve a student population that is at least 25 percent persons of color and/or where 40 percent meet the financial criteria for Pell eligibility; One or more of the participating institutions deem the partnership to be transformational and that, if completed, it would make a material difference to the operations of the institution(s); The partnership, if completed, is expected to produce materially better outcomes for current and/or future students of the institution(s).</b>
Rolling	Robert Wood Johnson Foundation	<a href="#">Research Grant</a>	Average Award: \$315,031 (over 1-3 years)	Health Equity, Arts & Humanities, Sociology, Business	<b>Pioneering Ideas: Exploring the Future to Build a Culture of Health</b> seeks proposals that are primed to influence health equity in the future. They are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. They want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come.

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling	Found Animals Foundation	<a href="#">Research Grant</a>	Up to \$750,000 (over 3 years)	Veterinary Medicine, Sterilization	<b>Michelson Grants</b> provide funding for research in pursuit of a single-dose, permanent, nonsurgical sterilization product or technology for use in male and female dogs and cats. Investigators are encouraged to submit for "proof of concept" studies in cell culture or rodents (in certain cases), and/or in dogs and cats. When developing a potential approach, applicants should consider the program's goal of bringing to market a low-cost, permanent, nonsurgical sterilant or sterilants that will have a maximum impact in addressing populations of animals driving shelter intake. Strong preference will be given to projects with the potential to produce a prize-winning product or technology, and approaches must represent a significant improvement over existing products. <b>To qualify for a Michelson Grant, a proposed project must pursue a technology, mechanism, or pathway representing an innovative approach to nonsurgical sterilization.</b>
Rolling	Michael J. Fox Foundation for Parkinson's Research	<a href="#">Research Grant</a>	\$2,000,000	Medical Research, Parkinson's Disease	The <b>Alpha-Synuclein Imaging Prize</b> will go to the first team to develop a viable selective alpha-synuclein PET tracer and agree to make that tracer available broadly. In vivo imaging of alpha-synuclein pathology could be useful as a biomarker of the presence of Parkinson's Disease and disease progression and as a pharmacodynamic tool for drug development. <b>There is no deadline for submissions. The award will be issued to the first contestant who submits compelling evidence of a viable selective tracer and agrees to its widespread use.</b>

RFPs for External Non-Governmental Funding Opportunities as of January 1, 2022

Deadline	Sponsor	Type	Award Amount	Subject Area(s)	Description
Rolling	Smith Richardson Foundation	<a href="#">Research Grant</a>	Up to \$300,000	Public Policy	The <b>Domestic Public Policy Program</b> supports projects that will help the public and policy makers understand and address critical challenges facing the United States. To that end, the Foundation supports research on and evaluation of existing public policies and programs, as well as projects that inject new ideas into public debates. Grant making portfolios include: identifying mechanisms that can inform thinking on fiscal practices at the national, state, and municipal levels; identifying how schools can become more productive (including post-secondary education); and whether costs can be lowered in the criminal justice system while still protecting public safety. <b>The Foundation has a two-stage application process. Initial inquiries should be submitted by mail in the form of the concept paper.</b>
